Making New Contracts.

The Great Western Sugar Beet Co. is already making new contracts for next year's planting. It is a pleasure to note that although this year was an unfavorable one for crops generally the results from the planting sugar beet seed were quite satisfactory, and it is expected that it will be easier work coming season to secure acreage than it was last year. It is an enterprise that should receive the encouragement of all, being a crop that seems to be especially adapted to this soil and to our climatic conditions. Mr. Weybright will remain here during the winter and will have the business of the company in this neighborhood in charge another season. His work has been very satisfactory among the growers of beets.

Must Reform Our Farming.

The average yield of wheat in the United States for the five years ending in 1910 was eight-tenths of a bushel per acre more than in the five years ending in 1905. It was less than four-tenths of a bushel more than for the ten ending in 1905. The average corn product for the ten years ending in 1910 was a little less than for the 10 years ending in 1875. Thirty-five years have not advanced us a step. European countries—Great Britain, France, Germany,—with inferior soils and less favorable climate, produce crops practically double our own. In our studies of conservation we find no waste comparable either in magnitude or importance to this. The farm will fail and the foundation of all our prosperity be undermined unless agriculture is reformed. Already the percent of our people actively engaged in farming has fallen from 47.36 in 1870 to an estimated 32 in 1910. Every man on the farm today must produce food for two months against one forty years ago.—J. J. Hill.

Corinne, daughter of Engineer and Mrs. J. W. Hasty, reached the 11th milestone in her happy young life, Thursday last, and the occasion was celebrated at the Hasty home, that afternoon, with appropriate particulars. About thirty girl friends participated. The young guests enjoyed a fine spread of refreshments appealing especially to the youth, Mrs. R. B. Southard and Miss Laura McMullen assisting in serving them. Corinne was the recipient of numerous pretty remembrances from her little neighbors and friends.

Two former priests of St. Patrick's church of our city, assisted in the celebration of the Requiem High Mass at the funeral in Lincoln, of Rev. William Murphy of Beaver Crossing, Friday morning, namely, Very Rev. Thomas Cullen now of York, and Rev. J. J. Loughran now of Seward. Father Cullen was assistant priest; Father Loughran, thurifer.

Attention is especially drawn to the chinaware announcement of the Drew Furniture and Carpet Co. We have an uncommonly handsome line and crave the public inspection. Come and see how nice an article even a small piece of money will buy. And we have the costlier things, too. But general prices the lowest in the city. Assortment is large and complete and well displayed.

A touch of the real thing, was the weather of Saturday and Sunday. The temperature reached in the neighborhood of the zero mark and a stiff northwester added to the discomfort and severity of the weather. The snow fall was slight.

The postoffice at Trenton was destroyed by fire, Friday morning. Nothing was saved from the office, mail, sacks, supplies and equipment being complete loss.

A 36-foot steel bridge is being built over the Beaver at the Orley Macey place, west of Marion.
