## SPECIAL SESSION COMMERCIAL

Club, Monday Evening, Well Attended and Some Questions Discussed in Lively Fashion.

## TRAIN SERVICE, IRRIGATION BY PUMPS, ETC.

Considered and Committees Appointed to Look Further Into the Matters and Report—Interesting Talk by Prof. Taylor Also Part of the Programme.

A special meeting of the McCook Commercial club, Monday evening, brought out a fair representation of the membership, and several special matters were considered and some action taken.

The first subject discussed was that of the proposed reduction of train service on the Burlington main line, the contemplated taking off of trains 9 and 10, consolidation of 16 and 2 at Denver, etc.

Sup't Flynn was present, also the new trainmaster J. E. Johnson. Sup't Flynn stated that the move was contemplated and that the new time card was in course of printing, when the completion of the card was held in abeyance by telegraph instructions from Chicago. Just what would be done he could not at that time state. The action proposed, however is only the regular winter schedule in effect last year.

The matter was discussed at some length, the sentiment being that an effort should be made by the club, acting in harmony with the people on the Imperial branch and elsewhere, to have trains 9 and 10 run at least to McCook.

The talks of members made plain the fact that not only McCook, but all the surrounding country would suffer from delayed mail, that passengers on the Imperial branch would be delayed here for 24 hours as well as mail for all that section of the country, and that other inconveniences would become effective should the proposed schedule become operative. All emphatically agreed that nothing possible should be left undone to secure at least an extension of the service to McCook, which is the more natural point for the terminus of the trains, from the reason that this is the division headquarters, location of shops, home of engine and trainmen, and offers every advantage from the railroad point of view for the dispatching and operating of the trains, having facilities only equaled at Lincoln and Denver.

After considerable discussion, a committee of three was named by President Cordeal to cooperate with Sup't Flynn in the effort. The committee is composed of F. M. Kimmell, F. A. Pennell and A. Galusha.

The discussion then veered to a contemplation of the question of

## Notice to Electricians.

Ordinance No. 204, sections 5 and 7, of the city of McCook require that electricians doing wiring in this city MUST secure permits to do wiring before commencing any work; and before connecting with the service MUST report the fact of completion to the city electrician before connection can be made with the service, in order that wiring may be officially inspected.

All offenders against the provisions of the ordinance in future will be prosecuted according to the ordinance.  
A. M. WILSON,  
City Electrician.

## The Grace of Giving

is universally commended. No one objects; few criticize. The most auspicious time to give gifts is, by common consent, Christmas. Charles Dickens put a finish to the "old Scrooge" ideas more than 50 years ago. So make a hearty resolve to do the graceful thing with credit to yourself and resultant joy to the recipients. Let us help you with our large lines of suitable gift articles for all ages, tastes and purses. The list is too long for the printer: come and look through. The Thompson D. G. Co. Utmost value for cash only.

## Prosecute Telephone Company.

The railway commission has decided to request the attorney general to prosecute the Holbrook Telephone association for failure to file reports required by law. The commission failed to obtain an annual report on time and urged the officers to comply with the law. The secretary pleaded sickness and said he would file a report when he got one that he thought would pass muster with the commission. The commission gave the company until November 29 to report. No report having been filed a prosecution will be commenced.

## Christmas Gift Problem

can be solved easily at our store. We offer a splendid line of high grade goods at fair prices. Come and see our Holiday Goods whether you wish to buy or not. Early buying is most satisfactory.  
A. McMILLEN Druggist.

## Trustworthiness.

The most essential thing about a man is his trustworthiness. If he can only be trusted so far as his own instincts of self-preservation are concerned he is not so dependable as a dog.—Saturday Critic.

## THE REASON WHY

some people fail to make a financial success is not because they do not have the ability to make money, but because they lack persistency or stick-to-it-iveness. You can save if you WILL. Perhaps you have tried to develop a bank account and have failed. Does that one failure justify poverty in old age? This bank offers you all the inducements and facilities possible for a bank to offer. With the ready assistance and advice of which customers of this bank may avail themselves, there is no reason why YOU should not accumulate an independent competence.
