### A SIMPLE FROCK WITH NEW PANEL.

Panels in every form seem to have caught the popular fancy, and here is one entirely new and original in shaping, which possesses the added advantage of being especially good for modeling, as it can be made of contrasting material. For instance, on a frock of taupe crepe de chene, or silk cashmere, the panel could be of taffeta in shades of faun and green. Or, for more elaborate

wear, all-over lace in Venice, or macrame, would be very handsome. The sleeve strikes another new note in the band and puff that lengthens it; and the puff may be extended if desired by featherbone, in the new erinolin effect.

For a perfectly plain one-piece frock, the panel may be omitted, and the dress made up in dark blue serge, with no trimming save a piping of satin finishing around the neck, and a satin girde.

## THEY'RE ALL ALIKE

Ask any man past fifty years of age and he will tell you of some time in his life when he was sailing high. Things were coming his way. There are few exceptions. Why is he poor now? Well there are various reasons. One thing is sure. It is not because he placed his money in a sound bank and checked it out only when safe investments were secured. There are more ways to lose money than to make it. If you are making any money, no matter how small the amount, start the saving habit by opening a bank account.
