Take Hall's Family Pills for constipation.

Without opiates or harmful drugs of any kind Foley's Honey and Tar Compound stops coughs and cures colds. Do not accept any substitute. A. McMillen.

Have a Care.

To Fathers and Mothers, Clergymen, Sunday School Superintendents, Teachers, Merchants and Citizens:

This is the Christmas time. The month in which we celebrate the birth of the Savior of the world by appropriate exercises and the giving of gifts; old and young all enter into the spirit of the season, and in order that nothing may occur to mar the pleasure of this occasion, I wish to call your attention to the dangers that lurk around the Christmas tree and the flimsy materials that are sometimes used in decorating it. Cotton-bating and celluloid and other inflammable material ought not to be used either on or around the Christmas trees, chimneys, or in show windows in stores.

Asbestos wool will represent snow just as well as cotton, and can be used by Santa Claus for his hair and beard. There are all sorts of decorations that can be used upon the Christmas tree and for decorating purposes that will not endanger lives.

A Christmas tree covered with candles is dangerous in itself as the tree, if the least mite dried, will burn if brought in contact with one of the little candles on the tree. In case the tree cannot be lit with little electric bulbs lamps with reflectors can be so set so the light can be thrown upon the tree and it will look just as attractive to the children, and will not endanger their lives.

Churches, school houses and public halls are usually packed to overflowing at these Christmas exercises and the smallest conflagration may cause a panic and the lives of little children may be stamped out under the feet of larger persons, even though the fire may not destroy the building.

I beg of you to take every precaution against anything occurring that will make the anniversary of Christmas a sad one in the homes of people in this state, and I hope that after the festivities of the coming Christmas are over that there will not be an account of a pathetic scene printed in any paper in this state and that neither life nor property will be sacrificed through careless practices.

C. A. RANDALL,
Chief Deputy Fire Commissioner,
December 12, 1911.

Stabbed the Foreman.

Roundhouse Foreman Loper of Orleans was in the city, Tuesday, reporting to Dr. C. L. Fahnestock of the Burlington relief department. He recently assisted in removing from the Orleans depot waiting room some young rough necks, who were drunk and indecent in their language, and in so doing was twice stabbed in the abdomen. Fortunately, his stabs were not deep enough to be serious. The young toughs are being held by the authorities at Orleans, awaiting the result of Mr. Loper's injuries. Orleans has been a source of considerable annoyance to the railroad company on account of such conduct by some toughs in that town and vicinity. It is to be hoped that this will afford the authorities an opportunity to give them what has been coming for some time.

To The Point
MOORE'S
NON-LEAKABLE
FOUNTAIN
PEN

While it is true that a good fountain pen will not leak if properly cared for, it is also true that it is not always possible to treat it as they ought, while the pens are in continual trouble. These leaking troubles are all obviated in Moore's Non-Leakable Fountain Pen. This pen, is true to its name, it's air-tight and cannot leak. It is also clean to handle and clean to fill, and for these reasons is a favorite among the ladies, travellers and students, as well as among business men.
