Sun Dogs and Rainbows.

The eastern heavens presented an uncommon spectacle to McCook eyes, Friday morning, with two brilliant sun dogs and four rainbows visible at the same time. The vision attracted many eyes, much attention and numerous comments, none recalling ever having seen just such an exhibition in the degree this one offered.

SEVERE WINTER WEATHER.

Keen Touch of Jack Frost—Below Zero Weather Continues.

The cold weather which has crimped all the west country for the past two weeks reached a climax, last Friday night, with a temperature variously given at from 18 to 26 below zero in this neighborhood. We are now entering the third week of below zero weather, the temperature reaching zero or below every day during the past two weeks—a record unusual at least in this section of the state.

Doubtless suffering has been caused to stock and much discomfort to human kind, in all cases where the best of fuel, protection and feed and food are not at hand.

Water pipes and drain pipes have frozen all over the city and the plumbers were not able to observe the usual Sunday rest.

On the railroad service, both passenger and freight, has been maintained in part only for several days with extreme exertion and under circumstances of much discomfort and some suffering to those employed. At times the severe temperature and wind have made it extremely difficult to keep engines in steam and trains warm.

This (Monday) morning, shows a slightly higher temperature but still below zero, 2 degrees, but indications point to a period of increasing warmth.

Tests of Seed Corn Urged.

On the statement of Prof. C. W. Pugsley of the agricultural extension department of the University of Nebraska, that Nebraska seed corn is poorer than for years, Nebraska business men will use not only their time, but their money, in urging on the farmers the importance of testing all corn for seed and in locating districts in the state where weather conditions were such that good seed corn in large quantities was matured.

Case Dismissed.

The case against James Pontius of Indianola on a charge of sending obscene matter through the mails, was dismissed by Deputy United States Attorney Lane yesterday afternoon. Few subjects in the realm of agriculture are receiving more attention than the silo. The agriculture colleges and the newspapers are constantly giving publicity to the matter in illustration and print. All who give the subject attention seem to agree that it is a most desirable adjunct and addition to the farmer—especially if the farmer devotes any con-

THE SUMMONS WAS SUDDEN

Mr. J. R. Jackson Is a Victim of Heart Failure.

Mr. J. R. Jackson fell to the ground in the local yard, Friday afternoon about five o'clock, and expired almost instantly, a victim of heart failure.

Mr. Jackson lives about two miles south of the city. He had driven to the city with Mrs. Jackson and then returned home with the horse and walked back to the city.

They intended to participate in the celebration of the birthday of their son-in-law Mr. John W. Shirley, and he was walking up the railroad yard toward the Shirley home, when overtaken with the fatal heart trouble.

Trainmaster J. E. Johnson and a switchman on duty in the yard hastened to the assistance of the fallen man, only to discover that death had ensued.

Dr. C. L. Fahnestock was summoned, but death had placed his seal on the old gentleman before his arrival.

The remains of Mr. Jackson were at once taken to the undertaking parlors of the Pade Furniture and Carpet Co., and prepared for burial, and early on Saturday morning were taken to the home of another son-in-law, Mr. H. L. Loshbaugh, awaiting interment.

The arrangements for the funeral are being held open until the arrival of a son from California, but in all probability will be held on Wednesday.

To Buy Old Ditch.

The Frenchman valley irrigation district has been organized and State Engineer D. D. Price of the state board of irrigation has been asked to sanction the plan outlined. He has given his approval to the organization. The promoters intend to take over the Culbertson ditch, which takes water from the Frenchman river, and is one of the oldest irrigation projects in the state. It has 10,000 acres of land under irrigation, but the ditch has run down and has been bought by Morgan J. Buckley, who is willing to sell the property.—Lincoln Journal.

THE INTEREST INCREASES.

Meeting of the McCook Co-Operative Hospital Association.

Another meeting of the temporary organization of the McCook Co-operative Hospital association was held at the Commercial club rooms, Thursday afternoon, January 4. That the enthusiasm and interest in this project are growing is very evident from the increased attendance at each successive meeting.

In the absence of the temporary president, Mrs. Z. L. Kay, Mrs. C. L. Fahnestock was chosen to preside.

The committee on incorporation, which was appointed at a previous meeting, Senator Cordeal, Miss Mary Morrissey and Mrs. Raine, made a partial report.

Until the articles of incorporation have been accepted, but little more in the way of forming a permanent organization can be done; but the committee will conclude its report at the next meeting, when plans will all assume shape.

The physicians are encouraging every effort to bring to perfection the ambition and desire on the part of the women of McCook to establish here a strictly non-sectarian, up-to-date hospital, and are giving practical suggestions covering all departments that may come under such an association. Almost every physician in the city has put himself on record as being in harmony with the undertaking, and willing to do a little more than his share to bring it about.

As soon as the articles of incorporation have been accepted, and the by-laws formulated, they will be made public, together with plans for establishing, equipping and maintaining the institution.

In meantime, the women who have this movement at heart are asking each individual to interest his neighbor in its upbuilding.

Come to the Commercial club rooms at 3 o'clock Thursday afternoon, Jan 11.

LaFollette Petition.
