Norris Right-of-Way Bill Passes

Washington, May 6. —(Special.) With practically no opposition, the house today passed the Norris bill to limit the width of the right of way of the Union Pacific railroad to two hundred feet. The matter has been pending since January, when it was introduced by Mr. Norris and referred to the judiciary committee. After hearing from both sides and a further hearing at which citizens of Greeley, Colo., appeared before the committee urging that the bill in-

clude Colorado points, it was reported by the committee. Judge Norris brought it up today on the unanimous consent calendar and the house passed it. The bill quiet title to property along the Union Pacific right of way for a hundred feet on each side, and includes the right of way in Nebraska, Colorado and Kansas. Senator Elisha has a similar bill now pending in the senate, and it is believed that it will be soon passed there and placed on the statutes.—Lincoln Journal.

CONGRESSMAN NORRIS THANKS FRIENDS AND NEIGHBORS

Committee on the Judiciary, House of Representatives, U. S. Washington, D. C., April 26, 1912.

L. W. McConnell, Esq., President Norris Club, McCook, Neb.

Dear Mr. McConnell: I desire to take this occasion to return my most sincere and grateful thanks to the members of the Norris Club, and to all other friends in McCook, for the enthusiastic and loyal support that was given to my candidacy in the recent senatorial contest. I am, of course very much pleased and delighted to know that I was victorious in this contest, but the pleasure and satisfaction of victory is not as much gratification to me as the knowledge of the loyal support that I received from my neighbors and friends in my own home. During the contest that is to follow, in which I expect to engage with all my vigor and strength, I will be much encouraged and strengthened by the knowledge of the loyalty and enthusiasm of the neighbors and friends who know me

best. In the fight that I have been making during the last several years, I have been often discouraged by the determined and bitter opposition coming from honest, patriotic and well-meaning citizens who did not fully appreciate the terrible struggle that the Progressive Republicans in the House were compelled to make against an entrenched political machine.

I take my nomination as a vindication of the course that I have pursued in the past, and it is a source of the greatest gratification to know that my efforts have been appreciated. This has been particularly shown and particularly emphasized by the overwhelming vote of confidence that I have received in my own home and in that portion of the state where I am best known.

Again thanking you and those you represent, and wishing for you all prosperity and happiness, I remain

Yours truly,
G. W. NORRIS.

Two young business men of Omaha and friends, painted that municipality a becoming and exuberant carnine the other night, after which they retired to a hotel room, where in handling an automatic revolver, one of them was instantly killed, the weapon being in the hands of the survivor of the tragedy, who made an unsuccessful attempt at self-destruction upon seeing his friend's death. John Barleycorn has bested the brainiest men of the ages, yet there isn't a mental shrimp so shrimpy that doesn't think he can "take a drink and let it alone." Maybe he can—but he don't. And tragedy and remorse are written all over the pages of history in terms of human blood and agony.

The presence of so many unaccompanied and unattended women and girls on the streets of McCook nights is more a monument to the safety of womanhood in our city than it is creditable to observance of usual social rules.

The case of Jesse Blunt against the Chicago, Burlington & Quincy Railroad company occupied the attention of Judge T. C. Munger of the federal court yesterday. The entire day was devoted to the taking of testimony, much of which was given by medical experts relative to the nature of the injuries sustained by the defendant. Blunt was a fireman for the railroad company and fell from his engine injuring his left knee. He claims that the knee joint has been permanently injured and asks \$15,000 damages and costs of the suit. The taking of testimony will be continued today and it is probable that the case will not be concluded before late today or Friday.

LIABILITY BILL IS PASSED.

Put Through the Senate After Long Debate by Vote of 64 to 15.

Washington, May 6. — The workmen's compensation bill was passed by the senate today, 64 to 15, substantially as framed by the employers' liability committee and amended only to increase its benefits. The bill, sharply fought by some of the democrats for several days, now goes to the house. A number of amendments were offered, but only a few were accepted, and these were with acquiescence of Senator Sutherland, in charge of the bill. The principal changes made during three hours of roll calls provide that compensation for accidental injury and death of railroad employees shall continue to children until they are sixteen years old, and would extend payment in the case of daughters until they are twenty, unless same are married.

Again the bill would provide an exclusive remedy and compensation for accidental disability or death to employees of railroads in interstate commerce or the District of Columbia on theory of insuring each employe against results of injury in employment without reference to contributory negligence or any of the rules of common law employer's liability. It would provide medical service for the injured and means for money recovery proportioned to the property of the victim. It is the outcome of a long investigation by the committee and was strongly urged by President Taft.

In the long debate which preceded passage of the bill many senators took part and there were spirited passages.

Deafness Cannot be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
