

**Burglars at Rulo.**

Rulo, Neb., July 14—Burglars got in their work at Rulo last night by breaking into three different places, Coupe's drug store, the post office and Kanaly's saloon. Entrance was gained through a back window in each place. A hole was bored through the top of the safe and powder placed therein in the post office but the charge failed to open the safe. The cash in the drawer and the postage stamps were not molested. At the saloon some whisky and cigars were all that was taken, but at the drug store jewelry to the value of several dollars was taken, but the cash in the register and slot machine was not touched. No clue to the robbers has yet been found.

**Cured of Chronic Diarrhoea After Ten Years of Suffering.**

"I wish to say a few words in praise of Chamberlain's colic, cholera and diarrhoea remedy," says Mrs. Mattie Burge, of Martinsville, Va. "I suffered from chronic diarrhoea for ten years and during that time tried various medicines without obtaining any permanent relief. Last summer one of my children was taken with cholera morbus, and I procured a bottle of this remedy. Only two doses were required to give her entire relief. I then decided to try the medicine myself, and did not use all of one bottle before I was well and I have never since been troubled with that complaint. One cannot say too much in favor of that wonderful medicine." This remedy is for sale by A. G. Wanner.

**A Free Institution.**

At the last regular meeting of the library board, action was taken upon an item of interest to all. One of the principal objects of a public library is to reach the masses, those who have not a private library, that good reading may be the familiar of every home, for it is a well known fact that books are a great factor in the molding of character. It has long been the desire of the board to place our library on such a basis, but until now no way was open. On a recent levy of the city tax the library receives an amount that justified the board in making the following rule:

Beginning the 1st of May, 1905 the circulation of the books from the library will be free excepting a slight fee for the ticket; the fines remain the same. From now on the charge for a year's ticket will decrease ten cents each month until May 1st, 1905.

**Safeguard the Children.**

Notwithstanding all that is done by boards of health and charitably inclined persons, the death rate among small children is very high during the hot weather of the summer months in the large cities. There is not probably one case of bowel complaint in a hundred, however, that could not be cured by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by A. G. Wanner.

**WHY SITTING HENS LEAVE THE NESTS**

In nearly all cases it is because they are so pestered with lice. Of course the hen does not know that the eggs may have cost you \$5 a setting—she leaves just the same. Prussian Lice Powder dusted freely on the nest and eggs once each ten days does the business. Does not injure the eggs, and the little chicks will be free from lice when they come out. Should you like the liquid better, don't forget our Prussian Lice Killer.
