

CURIOUS PEOPLE.

A Most Curious Collection of Living Human Beings.

Probably the most extraordinary collection of strange human beings ever seen together since the creation of the world is the stupendous one now with that wonderful amusement institution, the Barnum & Bailey Greatest Show on Earth. It is almost a certainty that Noah never had their prototypes in his Ark, nor for that matter can their duplicates be found in any country today. Among this curious and most remarkable gathering is the bearded lady, who, besides possessing a fine, long, silky beard and moustache, has a head of hair which reaches to the ground. The lion-faced boy has been likened to a sky terrier, for hirsute attributes are of such a wonderful kind as to cover his nose, cheeks, and all parts of his face, the fine long hair depending therefrom to a length of several inches. Then there are the giant, midgets, sword swallower, Albino dislocationist, the extraordinary contractionist and expansionist, the armless wonder, the human pincushion, and many others. The foregoing are but a few of the many living wonders in this department of the show. There are two huge menageries, three herds of elephants, a herd of giraffes, droves of camels, and five hundred horses. There are tents which cover 12 acres of ground, the largest seating 15,000 visitors, with every seat in it having a new foot-rest. There are half a thousand performers, including equestrians, acrobats, athletes, gymnasts, clowns, aerialists, specialists, contortionists, experts, jugglers, riders, and others whose varied performances on the ground, in the air, on stages, in the rings and on the bare backs of running horses, make up the largest and most extraordinary series of exhibitions ever held. It has been the pride and boast of the people for fifty years past, and has traveled in all countries demonstrating its immeasurable superiority to all civilized peoples. To travel the monster show from city to city requires ninety railroad cars, each nearly 60 feet long. The cars are the property of the show and were built from plans especially designed for the purpose. It will all be here on Thursday September 15.

Thirty-five Ribbons.

Will Holt returned Saturday morning with his prize porkers from Lincoln. They captured thirty-five ribbons, twenty-five being blue and five sweep stakes. The Berkshires will be at Benschoter's barn for the next thirty days.

Mangled.

Ralph Lewis, second son of E. O. Lewis was the victim of a serious and painful accident Friday night. The young man was attempting to board a freight train at Napier, Mo., and in some manner his foot slipped throwing both feet between the bumpers of the cars. Upon the cars coming together before he could release himself both heels were badly crushed in the fleshy part. Fortunately no bones were broken.

He was brought to Falls City about one o'clock Saturday morning and was taken to the Mercy hospital where Dr. Houston dressed the wounds. The probability is that the injured boy will be disabled for a long time, though he is doing nicely at this writing and no permanent injury is feared.

Mr. and Mrs. Rummel, who recently returned from Germany, came up from Vermillion, Kans. for a visit with their daughter, Mrs. Oleva Belisle.

In Praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"Allow me to give you a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mr. John Hamlett, of Eagle Pass, Texas. "I suffered one week with bowel trouble and took all kinds of medicine without getting any relief, when my friend, Mr. C. Johnson, a merchant here, advised me to take this remedy. After taking one dose I felt greatly relieved and when I had taken the third dose was entirely cured. I thank you from the bottom of my heart for putting this great remedy in the hands of mankind."
