**Dr. Taylor, Ophthalmologist**

If you have Headache, Nervousness, Blurring or Watery Eyes, floating specks, dizziness, weak memory, etc.

**CONSULT DR. TAYLOR**

The exhaustion of the nerve supply caused by eye strain is the cause of such troubles. I measure the eye and its nerve supply by the science of Ophthalmology, and can tell the amount of drain and strain on the nervous system, and by my methods of fitting and adjusting glasses remove the cause and all symptoms of eye strain and nature does the rest. If you have glasses that do not stop such trouble they are not properly fitted. Cross Eyes straightened without operation or drugs.

**CHILDREN'S EYES**—If your boy or girl complains of headache or if the teacher tell they are dull in their studies; many a child has been considered dull in school when the truth was that because of eye defects, blurred vision or headache it became an agony to study. Don't blame the child before you know. Our examination tells. Consultation free.

Office Hours:—8 to 12; 1 to 6; 7 to 9. DR. TAYLOR.

"I suffered one week with bowel trouble and took all kinds of medicine without getting any relief, when my friend, Mr. C. Johnson, a merchant here, advised me to take this remedy. After taking one dose I felt greatly relieved and when I had taken the third dose was entirely cured. I thank you from the bottom of my heart for putting this great remedy in the hands of mankind."
