

WHAT ROME THINKS

THE POPE'S PHYSICIAN ENDORSES AN AMERICAN REMEDY.

Dr. Lapponi Uses Dr. Williams' Pink Pills in His Practice Because Results Meet His Expectations.

Dr. Lapponi, the famous physician to the Vatican, whose name has recently come so greatly to the front on account of his unremitting attention to His Holiness, the late Pope Leo XIII., and the high esteem and confidence with which he is regarded by the present Pope, His Holiness, Pius X., is a man of commanding genius. He is more than a mere man of science; he is a man of original and independent mind. Untrammelled by the "etiquette" of the medical profession, and having used Dr. Williams' Pink Pills for Pale People in his practice with good results, he freely avows the facts and endorses the value of this remedy with an authority which no one will venture to question.

Dr. Lapponi's Letter.

"I certify that I have used Dr. Williams' Pink Pills in four cases of the simple anemia of development. After a few weeks of treatment, the result came fully up to my expectations. For that reason I shall not fail in the future to extend the use of this laudable preparation not only in the treatment of other forms of the category of anemia or chlorosis, but also in cases of neurasthenia and the like." (Signed)

GIUSEPPE LAPPONI,
Via dei Gracchi 332, Rome.

The "simple anemia of development" referred to by Dr. Lapponi is, of course, that tired, languid condition of young girls, whose development to womanhood is tardy and whose health at that period is so often imperiled. His opinion of the value of Dr. Williams' Pink Pills for Pale People at that time is of the highest scientific authority and it confirms the many published cases in which anemia and other diseases of the blood, as well as nervous diseases, such as nervous prostration, neuralgia, St. Vitus' dance, paralysis and locomotor ataxia have been cured by these pills. They are commended to the public for their efficiency in making new blood and strengthening weak nerves. After such an endorsement they will be accepted by the medical and scientific world at their full value.

Homes for Workers.

To encourage working people to establish homes of their own, Norway has founded a bank for workmen. It lends money at 3½ and 4 per cent, and gives the borrower forty-two years in which to pay the loan. The total cost of the house must not exceed £160, and the area of the land must not be more than five acres.

Japanese Superstition.

The Japanese have a plant called the otoma, which is considered by many to be a type of the marriage state. When a young couple of "believers" marry they will take a specimen of the otoma with them, plant it and carefully tend it and be fully persuaded that their conjugal felicity is assured as long as it lives and flourishes.

Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it

INFORMATION COLLECTED FOR OUR FEMININE READERS.

Some of the Latest Novelties in Dress Effects—Norfolk Coat a Smart Garment—Recipes for Appetizing Dishes—Bedroom Color Schemes.

Bedroom Color Schemes.

If ever there was temptation to furnish a bedroom in one color scheme it is certainly this year, for all the good shops are offering complete sets in bed furnishings in one color. In baby blue come California blankets bound in broad white taffeta ribbon. The cover for these is a heavy white linen, done in eyelet work or broderie anglaise in a florid pattern. The pale blue blankets may show through this eyelet work, or a slip of blue silk may be used beneath it. The down puff, which is to be rolled at the foot of the bed, is of pale blue satin, with the centerpiece and corners worked in flowers, evolved from narrow ribbons. The effect of the ribbon embroidery is that of renaissance work.

Norfolk Coat.

Norfolk coats always possess a certain smartness and are much to be desired for run-about suits and jackets. This one is adapted to both purposes and to all seasonable materials. As illustrated it is made of wood brown cheviot stitched with corticelli silk and trimmed with pearl buttons. The shaped yoke that extends over the shoulders, giving the broad effect, is a specially noteworthy feature and is peculiarly attractive while the cuffs harmonize with it to a nicety.

The coat is made with fronts, that are cut in two portions each, back, sidebacks and under-arm gores, the plaits being separate and applied over the seams, while the yoke is arranged over all. The sleeves are in one piece each and are laid in box plaits which are stitched for a portion of their length, their fullness forming puffs below, and are gathered into bands over which the cuffs are arranged. The belt is slipped under the plaits and closed at the center front.

The quantity of material required for the medium size is 6½ yards 27 inches wide, 4 yards 44 inches wide or 3¾ yards 52 inches wide.

Kimona Sacque.

The kimona in all its variations has become an established fact with Western women and is ever taking on new forms. This one is made with a slightly open square neck, while the shoulders are trimmed with straps which give the fashionable broad line. The material from which the model was made is pale blue cashmere, stitched with corticelli silk and trimmed with fancy silk made into banding but all the materials suited to negligees of the sort can be used.

The kimona is made with fronts, back and sleeves. The fronts are tucked to yoke depth and allowed to fall free below that point while the backs are tucked to give a box plaited effect and stitched for a portion of their length, being pressed into place below. The sleeves are wide and gathered at the upper edges where they are sewed to the sacque beneath the shoulder straps. The band at the front and neck is cut in two portions, which are joined at the center back, and is arranged over the kimono on indicated lines.

The quantity of material required for the medium size is 4¾ yards 21 inches wide, 4¼ yards 27 inches wide or 2¾ yards 44 inches wide, with 1¾ yards 21 inches wide for banding.

Breakfast Tomatoes.

Eggs baked in tomatoes make a slightly and tasty breakfast dish. Pick out apple-shaped tomatoes, cut a thin slice from the top of each, and scoop out enough of the pulp to leave a space that will admit an egg, says the Chicago News. Season the cavities with salt and pepper and drop an egg into each. Cover the bottom of a pan with hot water, put the tomatoes into it and bake about fifteen minutes. Season with butter and serve the tomatoes on toast, garnished with parsley.

WHILE THE TEA DRESS

A touch of orange velvet marks the newest long silk coats.

Pockets, and many of them, are appearing in the fall coats.

Red currants are embroidered over a white silk muslin gown.

A dainty mauve and white check is among the 18-cent suitings.

Panama cloth is a nice choice for the light weight outing skirt.

Pompadour wreaths catch up the folds of the dancing girl's frock.

Featherboning is a most important feature of the summer wardrobe.

A deep belt of orange silk finishes one of the lavender muslin gowns.

Repousse and oriental laces are much used on lawn and thin silks.

Long, loose separate coats are quite the most picturesque item of the season.

There is something indescribably ethereal about the finely dotted Swiss frock.

That lavender linen you have been sighing for is among the cut-price gowns.

Apple Compote.

Peel a half dozen red tart apples, core and cut in halves. Have in readiness a syrup made from a quart of water, a sup and one-half of sugar and the juice and grated peel of a lemon and a half. As soon as it boils put in the apples and cook until they are tender, but not broken. Lift the apples carefully into a glass dish, boil the syrup until quite thick, cool a little so as not to break the dish, and pour over the apples. Serve with cream, plain or whipped.

Circular Skirt With Box Plaited Flounce.

Skirts that clear the ground and render walking comfortable at the same time that they are hygienic appear to gain adherents week by week and month by month, until it is fair to say that no other sort is quite correct for the costumes of general wear. This very excellent model is quite new and is made snug fitting and plain over the hips while it gives abundant and graceful flare at its lower portion and is made with a full length back which is always desirable. As illustrated, the material is one of the new green and blue chevils trimmed with black velvet, but the model is adapted to all seasonable materials.

The skirt is made with a circular portion, flounce and back gores. The circular portion is fitted over the hips by means of tiny tucks and the flounce is box plaited and joined to it, the pointed edge falling over the plaits. The back gores are laid in two box plaits that extend from the belt to the lower edge and the closing is made invisibly at the center.

The quantity of material required for the medium size is 9 yards 27 inches wide, 4¾ yards 44 inches wide or 4 yards 52 inches wide.

ALL BROKEN DOWN.

No Sleep—No Appetite—Just a Continual Backache.

Joseph McCauley, of 144 Sholto St., Chicago, Sachment of Tecumseh Lodge, says: "Two years ago my health was completely broken down. My back

ached and was so lame that at times I was hardly able to dress myself. I lost my appetite and was unable to sleep. There seemed to be no relief until I took Doan's Kidney Pills, but four boxes of this remedy effected a complete and permanent cure.

If suffering humanity knew the value of Doan's Kidney Pills they would use nothing else, as it is the only positive cure I know."
