Entered as second-class matter, January 12, 1904, at the post office at Falls City, Neb., under the Act of Congress of March 3, 1879.

ONE DOLLAR PER YEAR  
Telephone No. 226.

W. H. Morrow is a successful lawyer. James never had a case in his life. Don't experiment.

The official ballot is nearly five feet long. Save time by making your x at the top and vote a straight republican ticket.

Mr. James, the democratic candidate for county attorney has lived in this county just four months. Do you want a non-resident for county attorney?

Every voter must say Bryan or Burkett when he votes the legislative ticket. Every democratic candidate will vote for Bryan—every republican will vote for Burkett. Which do you want?

The Falls City News devoted two columns to abusing Burkett last week. The democratic party is talking revenue law to deceive republican voters. What it wants is to defeat Burkett. Will you be fooled?

Next to the probate Judge, the county attorney is the most important officer in the county. Do you want to employ a man to take charge of the legal affairs of this county who has never been employed by a private individual in his life. If a man has not sufficient ability or experience to represent one man in a law suit, has he sufficient ability and experience to represent the interest of twenty thousand? Vote for Morrow.

The county attorneys office should be taken out of politics. The tax payers are in too great danger of incompetency under the present system. Of course Morrow will be elected, but the danger of having a man elected who is totally without experience in the law is of too great importance to be continued. We believe that if every tax payer realized the importance of this office and knew fully of the comparative merits of the two candidates that Morrow would receive every vote in the county.

"The ditching done on the Miller farm is at the owners expense with no thought of asking the county to help defray the expense. If every property owner would do this there would be no need of sending Mr. Grinstead to the legislature to have a law enacted whereby all the people would be compelled to contribute

to a private enterprise"—Falls City News.

The man who wrote the above knows his statement is false. No law could be passed under our constitution which would permit the bottom land owners to improve their land at the expense of others. The bill Mr. Grinstead has in mind will put every dollar of the cost on the land which is benefited. Not one cent on any one else. Mr. Elliot, the government expert on drainage stated the whole expense would be paid by the bottom land owners, and that the Nemaha river could be ditched so it would never overflow again and the whole cost could be paid by the first years crop from bottom land.

If you see it in the News during a political campaign, depend upon it, its not true.

The republican county candidates have made the most extensive and successful campaign this year that has ever been made in the county. The result of it will be seen Nov. 9th, when the lowest man will have not less than three hundred majority.

The News correspondent from Shubert who signs himself "republican," had another attack last week. In his latest effusion he speaks of having a brain. We thought we knew who this fellow was, but if he is correct on the brain assertion, we are mistaken in the man.

Do you have any objection to the owners of bottom land improving their farms, if it doesn't cost you anything? They have lost the use of their properties for three years. They can make them again fertile and producing farms without its costing you a penny. Do you want to prevent this? Are you as mean as all that?

Speaking of a "dying newspaper," have you noticed the list of new subscribers The Tribune has been publishing? We have increased at the rate of 23 a week and have again this week been compelled to increase our paper order. The increase in our circulation has been greater in the past three months than the combined increase of the other local papers in six months. Now is the time to subscribe.

This is the last issue of The Tribune before election and we can assure the patrons of this paper that there will be achieved this fall the most remarkable victory for the republican party that the state has ever witnessed. Roosevelt will carry Nebraska by at least fifty thousand; the state ticket will be elected by an unprecedented majority and the county ticket will not have less than three hundred majority.

**The Best Mattress**

For health and comfort is a Felt Mattress. Everybody knows it, hence the extortionate prices asked in every magazine you read.

But if they only knew that this \$8.50 Sanitary Felt Mattress is positively unexcelled in any point they would have no other.

It's made from guaranteed corded sanitary felt by the largest manufacturer in Cincinnati, Ohio, the great cotton market town. It weighs 45 pounds, will not absorb moisture, will make over like a hair mattress and is as soft as down.

**A Flowery Bed of Ease.**

Not half the people who read this add have a bed worth sleeping on, yet they spend every week for foolish things more than the price of a good bed. You spend one-third your time there. Why deprive yourself unconsciously one moment of comfort by sleeping on a poor bed when so great a portion of your life is spent in that way. Of all friends a mattress is the most personal. See to it that it is cleanly, sanitary and comfortable.
