

Wiggle Stick
WASH BLUE
 Costs 10 cents and equals 20 cents worth of any other kind of bluing. Won't Freeze, Spill, Break
Nor Spot Clothes
 DIRECTIONS FOR USES
Wiggle Stick
 around in the water.
 At all wise Grocers.

A Dairy Room.
 It is an easy matter for almost any farmer to have a good dairy room in his cellar if he cares to go to the slight cost of construction. The part selected for the keeping of the milk must be partitioned off from the rest of the cellar and should have a good large window that may be made impervious to the cold by double panes of glass. If this room is ten feet square it will give a floor surface of 100 square feet. The prevailing rate for cementing a cellar is 12 cents a square foot, provided the best of cement is used. This would be a cost of \$12 for the cement floor, which should be in every cellar used as a milk room. It will cost 35 cents a square yard to cement the sides of the cellar, if that is considered desirable. In most cellars it will not be necessary to cement higher up than three feet. The coat should be of strong composition and approximately an inch thick. This would cost \$4.67. These are city prices, but if an attempt is made to have the work done for less the result may be an unsatisfactory job by reason of the use of poor cement. The door that enters the main cellar should be a tight-fitting one and should be made self-closing, so that it will not be inadvertently left open. The window should be open as much as possible, so that the air in the room may come from outside rather than from the other cellar.

Big Hairpin Factory.
 The greatest of the world's manufacturing of hairpins is at Painswick, a village in the Stroud valley, at the foot of the Cotswolds. There are no fewer than three hundred persons employed in turning out these trifles of the boudoir, and hundreds of automatic machines are in constant operation transforming miles of wire into tons of finished pins.—London Engineer.

American Stops Swiss Train.
 Losing his new hat out of a window of a Swiss express, an American passenger pulled the alarm cord and the train was stopped. He recovered his hat and cheerfully paid a \$10 fine.

Antiseptic Flannellette.
 An English inventor claims to have found a process of making flannellette garments non-inflammable and at the same time antiseptic.

Says a Misogynist.
 If Paris hats and tiaras and necklaces were rewards of cheerfulness, women would forget how to weep.

A Teacher's Testimony.
 Hinton, Ky., Nov. 28.—(Special.)—It has long been claimed that Diabetes is incurable, but Mr. E. J. Thompson, teacher in the Hinton school, has pleasing evidence to the contrary. Mr. Thompson had Diabetes. He took Dodd's Kidney Pills and is cured. In a statement he makes regarding his cure Mr. Thompson says:

"I was troubled with my kidneys for more than two years and was treated by two of the best doctors in this part of the state. They claimed I had Diabetes and there was little to be done for me. Then I started to use Dodd's Kidney Pills and what they did for me was wonderful. It is entirely owing to Dodd's Kidney Pills that I am now enjoying good health."

Many doctors still maintain that Diabetes is incurable. But Diabetes is a kidney disease, and the kidney disease that Dodd's Kidney Pills will not cure has yet to be discovered.

The three most beautiful things in the world are roses, white butterflies and a woman's heart.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in 1/2-pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 ozs." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

Happiness Thrown Away.
 There's enough happiness thrown away to make the whole world contented.

Pasteurized Milk as a Charity.
 During the last two summers pasteurized milk has been sold to the people at cost in some of our great cities, particularly New York. The booths for the selling of this milk in New York sold during the past summer eight hundred thousand glasses. Over two million bottles of pasteurized milk were sold. The people are coming to see the value of pasteurized milk for infants and are coming to demand it. Doubtless thousands of infantile lives have been saved this past summer in New York by the use of this milk. The same plan has been inaugurated to some extent in some other great cities, including Chicago. It is a charity in the sense that no profit is made on the milk, but it is not a charity in the sense that everyone pays the actual cost of the article he receives.

The Cows and the Fall Pastures.
 After the frosts have come and cut down the value of the grasses in the pastures there is little reason for letting the cows run in them. If the rains have come and soaked the pastures till the soil is soft, there is all the more reason why they should not be subjected to the trampling of farm animals. Some of the pastures have been heavily stocked all summer and in the fall have a very thin sod in consequence. In most cases it will pay to give the land a rest till spring. The loss that will come on account of the trampling and the compacting of the wet ground will more than offset the benefits derived from the feed obtained.

Extreme Statements.
 A contemporary makes the statement that "warmth and comfort will double the yield of the same cows on the same food, as compared with cold." This is what may be called an extreme statement. Why did not the writer say quadruple or quintuple the product? One could be as easily proven as the other. In a general way it is believed that comfort increases the milk yield, but that it doubles it is a hard proposition to prove. Such extreme statements bring agricultural journalism into disrepute.

In New York city milk is sold from 12,000 stores and 4,000 wagons.

NEWS IN NEBRASKA

THE STATE IN BRIEF.

A long trestle on the Burlington's Omaha-St. Louis main line near Nebraska City Junction burned. All trains on that line were sent via Hamburg, Red Oak and Pacific Junction.

While out hunting Sunday young Peter Smet of Harvard received the charge of his rifle in his right hand, the ball passing through three of his fingers. Moral: Don't hunt on Sunday.

Alexander Gillaspie, a young man living northeast of Beatrice, made a record husking corn on the Easam farm one day last week. He gathered 104 bushels in eight hours and a half in corn that would not yield more than thirty bushels per acre.

The mysterious disappearance of R. P. Ingalls, a jeweler of Long Pine, coupled with the fact that his wife died a week ago and that he bought a razor on the evening of his disappearance, and also that two years ago he tried to commit suicide, has caused alarm at that place and searching parties are working in vain to locate the missing man.

Constable Smith of Jackson brought to Dakota City and turned over to Sheriff Hansen a demented man about 40 years old, who had been in the vicinity of Jackson during the day, putting people to flight by his wild and unbalanced talk. The man gives his name as Joe Sharkley and has been in the vicinity for several days with a gang of hoboes.

Commencing January 2, 1905, the University of Nebraska offers a course of instruction in the principles and practice of agriculture. The course covers the subject of soils, field crops, dairying, butter and cheese making, breeds and judging of live stock, diseases of farm animals, horticulture, shop work, farm machinery and English. No examinations are required for entrance.

Joseph Geissel, the man wanted at Tecumseh for forging checks, is well known in West Point. He was sentenced to the penitentiary from Cuming county for one year about eighteen months ago. His crime was very similar to the one alleged against him in Johnson county, the forging of a check upon which he obtained a suit of clothing and some money from a local merchant.

Diedrich Shindler, who owns a large stock farm near Nebraska City, has lost a number of cattle during the last week, which have died of blackleg. Several stockmen who own farms near Shindler's report the disease as being prevalent among their cattle.

Charles Schank and Floyd Smith killed a large black eagle west of Beatrice several days ago. After having its wing broken the bird put up a game fight and one of the men killed it with a club.

A. L. Haecker, associate professor of dairy husbandry, in charge of that department of the university school of agriculture, has been offered the position of director of the experimental station maintained by the Brazilian government at Piracicaba, in the state of St. Paul. The position carries with it a salary of \$3,000 a year and an increase of \$250 a year until the salary is \$4,000, together with free house rent. The professor is seriously considering the offer.

The preliminary hearing of Charles W. Derby, who is charged with committing perjury in his evidence in the Lillie murder case, was set for trial at David City November 22, but the parties have agreed to a continuance for about two weeks, owing to the fact that the district court is in session and the attorneys are busy in the trial of cases there. The arrest of Mr. Derby is the chief topic of conversation. Some are of the opinion that the case should be dismissed.

ROOSEVELT'S PLURALITY 84,833.

Complete but Unofficial Returns from Nebraska.

Unofficial, but complete returns for the state of Nebraska show that the vote on president at the last election was in the neighborhood of 225,000, or about 16,000 less than was cast four years ago. Of the votes cast President Roosevelt received 137,513; Parker got 52,697; Watson, 20,522; Swallow, 6,305; Debs, 7,380. This gives Mr. Roosevelt a plurality of 84,833, and a clear majority over all of 50,626.

On governor the vote was very nearly the same in total as for president. Governor Mickey received 111,707; Berge, 102,470; Swander, 5,277; Vail, 5,087; Mickey's plurality, 9,237.

The unofficial returns from the ninety counties of the state on president follow.

Postmistress Resigns.
TECUMSEH—Miss Orpha Collins has resigned as postmistress at Smartville, this county. She says the post-office will not pay more than from \$25 to \$30 per quarter and she cannot afford to give it her time.

Osmond Bank Sold.
NORFOLK—The Security State bank of Osmond, has been sold by W. M. Rainbolt to a number of Osmond business men.
