It may not be the best taste to blow your own horn, but we want to tell you a few things relative to our growing subscription list. We have increased our paper order five times in the last six months. Because of three articles in The Tribune of week before last, we received orders for one hundred extra copies but could furnish less than one half of the order. Since the first of January we have received so many subscriptions that last week we were compelled to cut out every exchange outside of the county and then had but three extra copies of the paper left. Better join the crowd and get your name on the list.

Juvenile Courts.

Through the influence of the Woman's clubs of the state a bill has been introduced in the legislature providing for the organization of Juvenile courts. This is a sensible reform. Heretofore young men and women have received jail sentences and have been incarcerated in jails with the lowest character of criminals. Of all the ways to reform the erring young, this is the worst. The bill will obviate this, and should receive the support of every legislator.
