Whitaker Bros. Land Excursion February 7, 1905

Providing the weather is favorable we will go on the above date to Dickinson, Saline, Lincoln, Ottawa, Jewell and Mitchell Counties, Kas., which is absolutely the RICHEST, BEST IMPROVED, SUREST FOR ALL KIND OF CROPS OF ANY OTHER LOCALITY in which you can buy good farms at so low prices. Of all the parties that we have taken to these counties not one of them but what will tell you that everything that we have advertised relative to this country is absolutely true. We have published heretofore the names of many who have bought land in these counties and if you will look them up they will tell you that you can not go to a better place to buy land either for a home or an investment. Don't take chances and go out west where the land will only grow buffalo grass on the upland and a little alfalfa on the bottoms. But go with us on next Tuesday or any time as we will make you excursion rates to the above counties and get a nice farm for a small amount where the land will produce anything and is a delightful place in which to live. The prospects for good crops and especially wheat was never better at this time and the quicker you buy the less you will pay and the greater will be your advance on the land. Write or call and get map and lists of lands and get ready to go with us on February 7. If you buy your fare will cost you nothing.
