

### Mass Meeting.

There was a large and representative gathering of our citizens at the court house Monday evening in response to the call of Mayor Holt.

The committee which had been appointed to investigate the question of better water supply and the sewerage question reported that they had investigated a number of locations for the water and had decided upon the lots where the business college now stands providing enough water could be had there. A test well will be sunk and if alright the lots will be bought at \$1000.

The committee was still maintained to assist the council in locating a water supply and estimate the cost of a sewerage system.

The meeting then adjourned to meet at the call of the mayor.

## WHITAKER BROS.

### Homeseekers and Investors Excursions.

The large snows of the winter fell on the land in Kansas before the ground froze, to a depth of 8 to 10 inches on a level and has put the ground in the best condition for crops that it has been in for years. Every thing looks fine in **Dickinson, Saline, Lincoln, Mitchell and Jewell** counties and there is no question but what land will advance rapidly from now, as a good crop is assured in all of these counties. Come go with us on next Tuesday and we will sell you good smooth land only 2 to 5 miles from good rail road towns for \$26.00 per acre, 1/2 cash balance 5 years at 6 per cent and throw in the wheat now on said farms.

If you don't wish to invest in farm land then go with us on next Tuesday the 7th to Pierre, S. D. which is beyond a doubt the best place to invest in city property, as the capital is now permanently located and Pierre as the capital of South Dakota will grow as have other capital cities in the last 10 years, and faster as South Dakota has made the greatest growth in wealth and population of any state in the union in the last 4 or 5 years. Here they have natural gas, artesian wells flowing hot water. The legislature is making an appropriation of one million dollars to build the State Capitol building and the government has made an appropriation of \$200,000 for a P. O. and Federal Court building. You can't lose by buying some good lots or property here in this Capital city, as it is now in its infancy. Look at Denver, Des Moines, Lincoln, Topeka all of these capital cities a few years ago were not half so promising as is Pierre, S. D. Call and get map of Pierre and printed matter telling you all about this new Capital city. S. D. has more wealth today per capita than any other western state in the union, and her people is proud of their state and capital and will make it a city of fame and wealth in a few years. Don't forget the date, R. R. fare only \$76.70 for the round trip, good 21 days.
