### TOO MUCH BAIT.

Fisherman report the appearance of a strange animal that has frequently been seen at points along the Nemaha south of town. While the creature seems to appear different to each individual beholder, all agree that its appearance is so frightful as to strike terror to the hearts of the boldest fishermen even in some instances having caused them to abandon their tackle and make a bee line for town. As some describe it, the animal might be a lynx or wildcat while others are sure that it lives part of the time in the water. One man says it has a slender body five feet long and a head like a hog. Another man is equally possitive that it is a young sea serpent.

There is no doubt however, but that a strange animal has been seen and fisherman are now carrying guns and keeping at all times a sharp look out for the beast.—Enterprise.
