Senatorial Convention.

A republican delegate convention is hereby called to meet at the Murphy hotel, Table Rock, Pawnee county, Nebraska on Monday, October 16th at 3 o'clock.

The chairman and central committee of the several counties in said first senatorial districts are requested to name delegates to attend said convention.

The basis of representation of the counties in said convention shall be the votes cast for Hon. H. H. Wilson for president, elector at the general election held on November 8, 1904, giving one delegate for each one hundred and twenty-five votes or major fraction thereof so cast for said H. H. Wilson and one delegate at large for each county.

Said apportionment entitles each county to the following representation in the said convention: Pawnee 15 and Richardson 21.

It is recommended that the delegates present in said convention cast the entire vote of their county for their delegation.

By order of the senatorial committee for the first senatorial district of Nebraska.

J. C. DORT JOHN W. POWELL.

The Tribune pays more each week for news-service than all other Falls City papers combined. We want the paper to become a household necessity, and you can help us if you will.

Jake Tanner is now fully recovered from his recent illness and is out with the voters stating his claims for the office. It is realized that our opponents are intending to sacrifice nearly everything to succeed on the head of the ticket. While this is somewhat hard on the rest of the democratic ticket it is in line with the policy heretofore pursued when Mr. Lord was a candidate. Mr. Tanner will be elected notwithstanding such effort. He is far superior as a candidate to his opponent in every way, and will receive a very large vote among the young men of the county and especially among the Germans.

The third term cry is being sung by our democratic friends until it is losing its force because of its monotony. The republican party has been built up by the integrity of its principles and the fidelity of its officials. We sent Burkett to congress for the third term because he was competent and faithful, and then we promoted him to a seat in the United States senate. The men in public life who count are those men who have proved their capacity and have been retained in office until they have the experience necessary to a good official. If a farmer has a good hand would it be the part of good judgement to discharge him because he has been in his employ for several years? The way to improve the public service is to retain men in the office who have shown themselves qualified to hold the office. A county officer is nothing more than a hired hand, if you have a good one, keep him. Of course our democratic friends are opposed to republicans holding over for a third term, they are equally opposed to a republican holding office for a first term. Their position in its last analysis is, vote against the republican candidates that we may have the court house full of democrats. Are you in favor of it, my republican friend?

It is better to suffer a thousand defeats than to run away from the battle.

One of Falls City's liberal men was approached the other day by a man with a subscription paper. "How much money are you trying to raise," asked the philanthropic citizen. "We think that one and two ciphers will let us out," was the reply. "Well" returned the citizen, "put me down for one of the ciphers."

There is no need to become discouraged. The reporter was in Mound City and Craig, Mo., last week and the business men of each place spoke of the summer's dullness being unprecedented. Falls City is suffering no more than the rest, and being the best town in the bunch will recover the quickest. Don't be discouraged, wait till the crops move and see.

The voters of this county will see to it that Judge Wilhite is returned to the position which he has filled with such distinctive success. The office of probate judge is far too important to justify experiments. Judge Wilhite is acknowledged to be the best probate judge the county has ever had, and having been called upon by his party to stand again as its candidate is doing all in his power to succeed himself. A vote for Wilhite is a vote for competency, integrity and fidelity.

If every citizen would not feel a personal interest in his home town, but would always be awake to the opportunities that come to him to assist in its improvement, things would take on a more cheerful aspect in a very short time. If you are in the ranks of the knockers, get out. Don't be a member of the anvil chorus any longer. Bear your part of the burdens, perform your part of the labor and do it cheerfully and gladly. In the aggregate of Falls City's wide awake men be sure that you are counted as one. Don't be a cipher.

The News continues its dirty little flings at John Hossack and stands about as much show of accomplishing his defeat as a certain notorious snow ball stood in the lower regions. If the News imagines it is accomplishing anything by its contemptuous statements concerning the horse thief association, we would suggest that it take a few minutes of its valuable time to talk with the democratic members who know of the splendid service John Hossack has been to the farmers of this county in the past four years. It will doubtless learn something.

The campaign of misrepresentation now being made against the republican candidates has been started too early, it will have time to die of its own weakness before election. The howls of machine, prearranged deputies and similar campaign dodges are as silly as they will be ineffectual. The convention in Stella was as free from the influences of the practical politician as any ever held in the county. The ticket there nominated is representative of the best in the republican party. It was dictated by no man nor set of men. It was the voluntary expression of the delegates. This cannot be said of the democratic ticket. For years Clay Davis, Joe Miles, John Morehead et. al. have chosen the nominees of the party and they did so this year. All talk of machine politics coming from the Falls City News is mirth provoking to democrats and republicans alike here in Falls City. What the tales of machine politics really means is, that the leading democrats want republican assistance in order that the republican party locally may be destroyed. The republican voter is too old to be caught with that kind of chaff. He thinks too much of his party to permit Davis, Morehead and others to induce him to assist in its defeat.

What reason can any republican offer for voting against Porter Stringfield for county clerk? By every test he is entitled to your support. He is industrious, able and competent, honest and faithful. He is a republican and stands as one of the representatives of that party. Richardson county is a republican county and will continue so if the rank and file does its duty this fall. The opposition will seize on everything and anything to win votes that the republican candidates may be defeated and the opposition be triumphant at the ensuing election. The only way to defeat the republican party in this county is to do it by republican votes. Are you going to contribute to the destruction of your own party?

How to Cure Corn and Bunions.

First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily rubbing vigorously for five minutes at each application. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. For sale at Keer's Drug Store.
