**P**ICK UP a newspaper from Chicago, New York, Podunk or Falls City, and if you'll read the clothing ads and believe them, you'll discover that the greatest band of philanthropists on earth are the clothing men. Most of them are today selling \$18.00 suits for \$9.88, \$12.50 suits for \$7.88, and so on down the line. Think of what they are saving men who wear clothes if they live up to their advertising—but they don't. They get a suit that can be sold at \$9.00 with a profit. It looks good. After a consultation they decide that, while it isn't worth \$10.00, it'll stand it, so they make it \$7.88 or \$9.88. But they argue, "If we only tell 'em its a ten dollar suit that won't sound cheap, and so we'll tell 'em its a \$15.00 suit or an \$18.00 suit, or if they've left off breakfast food and tackled some particularly strong nerve tonic, they say, "Let's tell that its a \$22.00 suit for \$9.98 and that'll fetch 'em." It does fetch some of 'em—once!

The new way—the HARGRAVE & HARGRAVE way, is to tell the facts and let you judge the value when you see the goods. We are selling men's suits at \$7.25 better than anybody ever sold for 7.25 before. We are selling suits for \$8.25, \$9.25, \$12.00, \$12.50 and \$15.00. They are better suits than you can buy for these prices of anybody else. We want your opinion—that'll bring you trade. Our profits are small and we don't sell goods at cost, or less than cost. Any goods purchased from us if not satisfactory, return same and we will refund your money.
