**NATURAL GAS.**

The pipe lines from the Kansas gas fields are soon to get as close to us as Atchison. Natural gas is the cheapest fuel and light known. A Kansas City paper last week stated that the homes in Kansas City, Kans., were heated and lighted for an average of \$2.80 a month, less than 10 cents a day. Natural gas as a fuel is a great encouragement to manufactures as it decreases one of the chief items of expense. The towns along the Missouri Pacific are talking of financing a proposition to extend the pipe line from Atchison north. Why should Falls City not co-operate in this project? The gas can be sold for 30 cents per thousand at a profit. Natural gas would be a great thing for Falls City, not alone in decreasing the cost of living, but in inducing manufactures to locate here.

Let's we forget, there is going to be some big doings in Falls City real estate before the leaves begin to fall.

Are you down and out? You will never be until you admit it. Life is too short to fail, get up and start again.

About the sweetest thing on earth is a natural little girl; about the most repulsive thing is an unnatural, affected little girl.

Life is too short to be spent in wounding the feelings of another. Be kind, there is trouble and grief enough without any of your product.

Before you send your order to the catalogue house it would be the part of wisdom to ascertain the price asked by the local merchant.

This week The Tribune loses one of its most valued employees in the resignation of Belle Hossack. Miss Hossack has been with the paper from its first issue and has contributed greatly to its success. The Tribune wishes for her all those good things which she so richly deserves.

The W. C. T. U. of Kansas has suppressed some vulgar posters advertising a burlesque show, and yet the performance is permitted to exhibit nightly. If we wanted to suppress anything we would try it on the real thing and not the pictures. The morality of some people is silly in its ineffectiveness.

The suggestion that the next legislature enact a law requiring all corporations doing business in Nebraska to incorporate in the state as a Nebraska corporation in order that they may be prevented from trying all their cases in the United States court, has met with instant approval from the weekly's all over the state. The newspapers can force the passage of such a law in spite of railroad opposition by staying with the proposition until the next session.

Lincoln Nebr. Jan. 6th..

Those who have imagined that it will be an easy matter to defeat the railroad machine this year should wake up. It will not be easy. The machine is already united on Millard. Word has been sent to every pass-holder and striker to be for him, and to pack the conventions for him. This is because they expect him to help interfere with the Roosevelt rate program, and help delay the Panama canal.

The machine is also actively at work in all sections picking out the right kind of candidates for the legislature and for state offices. They want men who will be against freight rate legislation, and for lower railroad assessment. They are against practically every plank in the republican platform. In the meantime, what are the voters doing? Are they content to sit idle and see the convention packed by this machine?

The way to defeat the scheme is to join together in every precinct and resolve to support only those candidates who take a square stand before convention time.

This should apply to candidates for the United States senate, for state offices and the legislature.

The men who pay the freight, and who pay their taxes without federal injunctions have the matter in their own hands if they will attend to it in time. Will they do it?

I would like to hear personally from the tax-payers who propose to make a square stand in this state for the "Roosevelt square deal," and who will make a local fight against the corrupt machine.

F. A. HARRISON.

There should be no politics in the tax agitation. The people should make common warfare against the tax dodgers. Any attempt to make it a partisan conflict will tend to destroy the desired end. Norris Brown, attorney general, not as a republican but as the servant of all the people, is fighting their battles with courage and marked ability. Let all citizens, as citizens, cooperate with him in his noble struggle.

Mr. Hadley, the young republican lawyer elected attorney general of Missouri at the recent landslide, has bearded the lion in his den and is taking the depositions of the high moguls of standard oil over in New York. Henry Rogers, the head push, in his testimony expressed the most marked contempt of Missouri and its courts and indicated that he was indifferent to the judgments of western judicial tribunals. Mr. Rogers is but a big thief and is so hardened in his iniquity that he is shocked at the presumption of young Hadley in questioning his right to steal. He grew very sarcastic as Hadley kept prodding him and the young lawyer talked back right sassy but the testimony obtained will prove of little value, Rogers is a liar. It would be worth while to hear Rogers give some of his vaudeville talk to Nebraska's attorney general. What Norris Brown would do to him would keep him busy applying court plaster over the skinned places for some time afterwards.
