Duroc Jersey Swine.

The sale of Duroc-Jersey swine at the Nemaha Valley farm south of Humboldt on the 7th inst. was one of the most successful held for some time past. The crowd was large and were there for business. They found just what they were looking for and were willing to pay what they were worth in most instances. While exclusive breeders were not numerous, the farming community concluded to try the red fellows and knew just where to find the best in the state. Mr. Brandow has been building up this herd for the past seven years and has always paid the top price for breeders. Blood will tell and today the Nemaha Valley herd is second to none in the state. The average price was close to \$40 for youngsters which proves beyond a doubt that the average Nebraska farmer has faith in future pork.
