The influence of evil in high places is being combated with greater force at this time than ever before in the world's history. The only thing America has to fear is America. Corruption in office does more than rob the people of their rights, it contaminates the whole community and makes for the popularity of evil. Take Omaha for instance; its government has been a government of thugs ever since Frank Moores was first made mayor. Such men as Tom Dennison the notorious gambler, Vic Walker the negro politician, and Pat Crowe the kidnapper, have been the real government. The influence of such men has tended to corrupt the entire city government. Pat Crowe shot a policeman in Omaha so that for days his life hung by a thread, an Omaha jury found him not guilty. Pat Crowe stole the child of Edward Cudahy, took him at night to a lonely forest and demanded by letter \$25,000 of the frantic parents or he would destroy the sight of the child. Rather than submit his child to such a diabolical maiming the father left the money at the point designated by Crowe. Crowe admitted the commission of the horrible crime. He wrote a letter to a priest confessing his participation in the kidnapping. Thirty witnesses in the Douglas county district court last week testified against him; the letter in his own writing was admitted in evidence and shown to the jury. Crowe did not go on the stand, he did not deny the crime nor deny the authorship of the letter. The jury found him not guilty. Crowe is a hero in Omaha, according to its standard he has made good. A precedent has been set for the other thugs to steal children of wealthy parents and extort money from them. We congratulate Omaha on the result of its vicious city government. All hail Pat Crowe, the hero of the hour, one of Omaha's most distinguished citizens. If Pat Crowe had been tried in Richardson county before the jury of the last term of court he would have received a jolt that would hold him for a long time, law and order would have been vindicated and the necessity for mob law would not prevail.

The new board of regents was organized at Lincoln last week by the selection of Mr. Ernst as president. V. G. Lyford of this city and Fred Abbott of Columbus were duly qualified as members. The wisdom of local republicans in selecting Mr. Lyford for this place was demonstrated at the first meeting. Many personal matters came before the board at the instance of men with axes to grind but the Richardson county member kept clear of all such matters and voted with the single idea of the university's welfare.

In another column appears an article on the proper selection of seed corn to which we call the attention of our farmer readers. Farming on the high price land of Richardson county has become a serious problem that can be solved only by the most scientific and systematic methods. If the farm can be made to yield ten bushels of corn more to the acre by a proper rotation of crops and careful selection of seed, it seems to accomplish the result. There is land in this county that has been in corn for twenty successive years, and yet some farmers cannot understand why their neighbor is more successful than they.

A Correction

Mr. Editor.—In last week's Tribune appears an article published as to the work now being done to save the Big bridge which has certainly been placed very high. It is true there has been considerable work done and a vast sum of money spent though the total cost will not exceed \$250,000 or \$300,000. About six years ago the government done \$75,000 worth of work or at least that sum was spent but only a small price of work was done. Then the Burlington has done a great deal of work both on the east side of the River and on the west side. Eight hundred feet north of the bridge and on the Big bend three miles south of Rulo about 4,000 feet of Rip Rap work was done. The first of this work was done six years ago by the government, the work now being done is near John Mann's farm three and one half miles north east of Rulo by J. H. Lynds of White Cloud under contract. Mr. Ball has charge of this work for Mr. Lynds. This is where the ground is low and a grade is being put and paved with rock to prevent the River from running over into the Lake when extremely high and as far as the bridge being in danger is a mistake or as to being left over a lake or a sand bar is imagination.

Mr. Scott's duties is to keep an account of all cars of rock received by Mr. Lynds for this work as all cars have to be weighed. He keeps the car numbers and the tons of rock received.

Excursion

On Tuesday of this week the M. P. Ry. ran a land excursion, south to southern Kansas points. There were about thirty home seekers from this city and they expect good results from the trip.

Artificial Ice Assured

The sale of the ice plant under chattel mortgage has been held up by an injunction issued out of the district court last week. The plant will therefore remain in the hands of George Hinton until the injunction case can be tried. George is preparing to make the necessary repairs to the plant and furnish local patrons with ice frozen to order during the coming summer. Thus does the Lord temper the wind to the shorn lamb and protect Falls City from a threatened ice famine.

If the people of Falls City could only realize what the stub trains may mean to the town; if the men of Falls City could look into the future and see what the result of the proper co-operation of our people in making these trains pay, will mean to the town, they would patronize them whenever it is practicable to do so. Those who do know and understand have been at the station every morning and evening to see what it is doing and count the passengers goin and coming. So far the result has been fair, every traveling man is doing his best for us. Sandusky, Kellar, Burgess, Bizzy Izzy, King and others are doing their best to show the Pacific that the committee was telling the truth in its representations. The other towns effected a re showering headquarters with protests over the charge accusing the committee with dealing in hot air. If Falls City fails it will be Falls City's own fault. Use the stub trains. We have something in sight. It isn't a phantom—it's real. Help us get it.

Lost a Valuable Dog

Charlie Hoppe was wolf hunting this week near Preston and had several good dogs in the chase. He lost track of them for a while and when he came up with the other dogs they were at the edge of the river, and one was missing. From all indications the struggle between the wolf and dog had taken place at the water's edge, both going through the ice and were drowned. It was his most valuable dog.

Quilting Factory

A new quilting factory and sewing machine headquarters has been opened in the building formerly occupied by the Ramsey second hand store, and are making daily demonstrations of their work. Several good samples are now on exhibition, the work being done on the Singer and the Wheeler & Wilson machine.

Music Store

The Ross P. Curtice Music Co., represented by Mr. Fussell have opened up a music store in the building formerly occupied by J. Ramsey. They will handle piano's and also an extensive stock of sheet music. This same company was formerly located in this city and gave every attention to their trade and patrons.

A. Flory and wife of Kansas City, Mo., are the guests of A. E. Jaquet and wife.

Mrs. S. V. Sears has been quite ill the past week.

Where Do You Buy YOUR COAL

The Where May make a difference of a good many dollars in your expense account for the year—either in actual outlay for the coal in extra expense for the furnace and range repairing, or in unnecessary discomfort and housewife worry. It behooves you to think twice before placing your orders—need think but once if you order from

Cast your optics on this space next week. It will interest you.

Seed Talk.

This is reasonable talk and many farmers are now looking about for clover and timothy. I have a choice supply and the PRICE IS RIGHT. I also carry lawn grasses, white clover and blue grass. Get my price before you buy. A good supply of millet, caffir corn, can and garden seeds of all kinds in bulk.

Keep your eye on this space each week and I will interest you in reasonable goods in my line. I want your trade and will try and merit the same by fair treatment and just prices.

J. C. Tanner.

Complete Line of Hardware. Meyer's Old Stand

New Clothing Firm.

An extensive stock of clothing and Gents furnishing will be installed about March 1st, by the firm, Wahl & Parchen in the building formerly occupied by F. W. Cleveland & Son. A great amount of improvements and changes are now being made in the building making more room and light. The opening will be about March 12th. Both Harvey Wahl and Fred Parchen have been in this city a long time, being in the Samuel Wahl store for a number of years and both have ability and good business management. We bespeak for them a successful business career and we know the public will give them the patronage they so richly merit.

Attention.

Do not forget the call meeting at the court house Monday night for the purpose of nominating a city ticket. Let every republican be present and voice his sentiment along these lines.

Legal Notice.

In the Richardson county district court, State of Nebraska
Bessie Roberts, Plaintiff
vs.
Jesse A. Roberts, Defendant.
The defendant, Jesse A. Roberts, is hereby notified that the plaintiff, Bessie Roberts, did, on the 17th day of February, 1906, file her petition in the district court of Richardson county, Nebraska, against you, the object and prayer of which, is to obtain a decree by said court dissolving the bonds of matrimony now existing between you and her, on the grounds of non-support of her and her child, and that you are a common drunkard and gambler.
You are further notified that unless you plead answer or demur to said petition on or before the 9th day of April, 1906, the same will be taken pro confesso, and a decree of divorce as prayed, will be entered accordingly.
