This paper isn't a Missouri Pacific paper, it's a Falls City paper. The nothing for us, the Missouri Pacific has. The Pacific has made temporary arrangements with the Burlington to turn the stub train engines on its turn table. The Pacific wants to be assured what Falls City is going to do. It wants to be "showed." If the trains pay there will be permanent arrangements made. Let every citizen of the county do his part to make the trains pay. Every man in Verdon and Stella can help if he will. Every person in Falls City can help. Let's all get together and something will be doing, our word for it, something will be doing.

While many of us may differ as to politics, religion and telephone matter, we ought all to agree that to patronize home industry is the proper thing to do. A visit to the Heacock mill will surprise you as to the completeness of the plant. Mr. Heacock and Roy have shown great faith in the town by their investment and the product they turn out is the equal of the finest flour in the land. It is not the men alone that can help build up a town, the women as well can help. The next time you order flour try the home brand. Buy home made cigars. Cut out the catalogue house and assist in making Falls City the best little town in the state.
