You Will Prosper in the Great Southwest

In Oklahoma, Indian Territory and Texas are vast areas of unimproved land—land not now yielding the crops of which it is capable. The same conditions apply to the towns. Few lines of business are adequately represented. There are openings of all sorts—for mills and factories, for small stores, for banks, newspaper and lumber yards. You have only to get on the ground to prove this. To enable you to do so the Missouri, Kansas and Texas railway offer

Rates Cheaper Than Ever Feb. 6th and 20th March 6th and 20th

On above dates most lines will sell both one-way and round trip tickets at exceptionally low rates. If your nearest railroad agent cannot give you the rates, write me for particulars.

If you're in any way interested in the Southwest, I'd like to send you my paper "The Coming Country." Address

Agent C. B. & Q. Ry.
L. W. WAKELEY,
G. P. A., Omaha, 113-41

The Burlington's Homeseeker's Information Bureau, which has been recently organized to assist homesteaders in getting hold of free homesteads of 640 acres in Nebraska for mixed farming and dairying, is proving a great success, and the operations of that Bureau are now taking on useful and practical shape.

Mr. D. Clem Deaver, the Agent of the Bureau, has arranged to personally conduct excursions of homeseekers from Omaha and Lincoln on the first and third Tuesday of each month to the territory of these free Kinkaid lands for the purpose of assisting desirable farmers to locate on the homesteads that are yet available for a farmer to succeed by mixed farming.

Those who expect to succeed should have ready means for the immediate improvement of the land in the way of fences and buildings, and money enough to start with a herd of 20 cows and a hand cream separator. This ought to be a good opportunity for an energetic farmer of moderate means to secure a farm.

The Burlington makes no charge for the services of its agents, and Mr. Deaver has on file a complete plat of available lands in the 16 counties along the Burlington road, where these homesteads are located.

Those desiring to obtain information relative to taking up a homestead, can obtain a folder free of cost, and further information, by calling on or writing Mr. D. Clem Deaver, Agent of the Burlington's Homeseeker's Information Bureau, 1004 Farnam St., Omaha, Neb.

It not only cures croup, but when given as soon as the croupy cough appears will prevent the attack. For sale at Kerr's Drug Store.

Irrigated Lands A Sure Thing!

Special Homeseekers' Rates:—On February 6th and March 6th and 20th the Burlington makes very low excursion rates to the Big Horn Basin, the North Platte Valley and Eastern Colorado.

Keep Ahead of the Movement:—The Government work is under full headway towards putting water on two hundred thousand acres of land adjacent to the Burlington road, at an average cost of \$25.00. It is possible today to secure homestead lands along these great ditches, in advance of the water. You can also buy from private concerns, very fine irrigated lands, under a fall and permanent water supply, at prices ranging \$25.00 to \$40.00 an acre. The history of western irrigated lands shows that their value has increased over one hundred per cent in the past few years. There are areas of irrigated lands in the west that cannot be bought today for \$300.00 an acre.

It Will Pay You to get interested in irrigated land, and to get in touch with the land agents in the North Platte Valley, the Big Horn Basin, the Billings, Montana district or Eastern Colorado. If you will write me for irrigation literature descriptive of any of these localities, I will mail it to you free, together with a list of land agents.
