

**The Notorious Fisher.**

The Hobo Priest and general all around scoundrel, one Fisher, upon whose uncorroborated testimony Dr. J. L. Gandy was recently convicted in Auburn has "flew the coop," so to speak. This fellow, who admitted about on the stand that he had committed about every offense known to the law, and would be willing to re-commit them if he were paid for it, testified that Gandy had endeavored to get him to commit perjury in the case of Gandy vs Bissell soon to be tried in this county. The case being against Gandy the jury returned a verdict of guilty. Now it appears that Fisher is ready to throw down the fellows for whom he was acting in the prosecution of Gandy, and who it appears were trying to win the Bissell case, not on its merits, but by sending Gandy to the penitentiary and thereby destroying the case of his wife against the Bissell estate. The following appeared in the Nemaha County Herald last week:

"Our friend Fisher just at this point again steps to the center of the stage, which he has seemed determined to occupy. On his testimony in the Gandy trial, the above proceedings were largely based and he was to have, of course, gone on the stand again in the disbarment proceeding.

Saturday he suddenly removed from Auburn and was not heard from until Monday, on which day County Attorney French received a telegram from Fisher, dated at St. Joe, Mo., in which he stated that he had been "decoyed" to the latter city and that \$25 was needful for the continuance of his health, etc., etc. Mr. French did not send the money, but on Monday evening, in company with Sheriff Rohrs went to St. Joe. Here they found Fisher on Tuesday, who promised to return with them. He stated, incidentally, that he had interviewed the county attorney and that individual had told him he could stand on his rights and not go back until extradition papers could be made out. But Fisher magnanimously waived this, until just an hour before train time, when he became nervous and stated that if brought back he would most probably be placed in jail. Seeing how he felt about it, the officers knew it was useless to try to induce him (without money) so they allowed him to escape, which he did with studied care.

Later developments in the 'Comedy of Errors' are awaited with interest.

**"The Holy City" Again.**

For this, the second season of Gordon and Bennett's wonderful drama "The Holy City," every degree of theatrical representation has been made to excel: The allegory, musical, spectacle and thrilling situation so greatly enjoyed last year company of superior talent, costumed in garments of almost bewildering beauty, is stronger and more brilliantly arrayed, and additional accessories have been provided. Nothing more dramatically complete will be seen this season and it is of pleasant record that last year's success is being surpassed.

Any man can earn money, few can save. Fifty cents a year isn't much to save, but fifty cent pieces count up pretty fast. All the news, all the time, all the year for one dollar is one of the advantages of this paper. If you are not a subscriber, consider this an invitation to become one. If you can't call drop us a card and you can pay the dollar the next time you are in town.

**What Mail Order Houses Are Doing for Farmers.**

The following is clipped from the columns of the Clintonville (Wis.) Tribune:

1. You shall sell your farm products for cash wherever you can, but not to us; we do not buy from you.
2. You shall believe our statements, and buy all you need from us because we want to be good to you, although we are not personally acquainted with you.
3. You shall send the money in advance to give us a chance to get the goods from the factory with your money; meanwhile you will have to wait patiently a few weeks because that is our business method.
4. You shall apply to your nearest city to aid in building good roads, so you may conveniently get the goods from the depot that you buy from us, for we do not build country roads.
5. You shall buy church bells and interior church fixtures from us and forward the money in advance, for that is our business method.

6. You shall collect from the business men in your vicinity as much money as you can for the benefit of your churches. Although we earn more money from you than they do, still it is against our rules to donate money for building country churches.

7. You shall buy your tools from us and be your own mechanic, in order to drive the mechanics from your vicinity, for we wish it.

8. You shall induce your neighbor to buy from us, as we have room for more money.

9. You shall look often at the beautiful pictures in our catalogues so your wishes will increase and you will send in a big order, although you are not in immediate need of the goods, otherwise you might have some left to buy necessary goods of your local merchants.

10. You shall have the mechanics that repair the goods you buy from us, book the bill so you can send the money for his labor to us for new goods, otherwise he will not notice our influence.

11. You shall believe us in preference to your local merchants, as we want your best and we only become millionaires by chance.

12. You shall in case of accident, sickness or need, apply to your local dealers for aid and credit, as we do not know you.

**Chronic Bronchitis Cured.**

"For ten years I had chronic bronchitis so bad at times I could not speak above a whisper," writes Mr. Joseph Coffman, of Montmorenc, Ind. "I tried all remedies available, but with no success. Fortunately my employer suggested that I try Foley's Honey and Tar. Its effect was almost miraculous, and I am now cured of the disease. On my recommendation many people have used Foley's Honey and Tar, and always with satisfaction." For sale at Moore's Pharmacy.

**The Holy City.**

In arranging for a return date of "The Holy City," Manager Gehling has again secured the most impressive drama on the stage. A full house will await the reappearance of the company here on the 16th of April at the Gehling.

**They Look for the Ads.**

An exchange puts home a solid shot when it says: "A newspaper may boom a town through its editorial and news columns, but a critical investor looks to the advertising columns for the substantial evidence of push and life. To him they are thermometers, measuring the intensity of public warmth; they are the pulse that indicate the healthy condition of the people they tell him whether or not the community is up to the times in business matters."—Tarkio Herald.

**Some Catchy Posters.**

During the past few weeks Sydney P. Spence, Proprietor of the National Hotel has received numerous inquiries concerning some unique ad displays in the line of posters which he scattered through the hotels over the state. They are the style of "Weary Willie" posters namely Dogey, Daisy, Sunny and Rosey. He received letters desiring more information, from M. Bagattor, San Francisco, Cal., W. A. Wayman, St. Joseph, Mo., and C. Bradley of Beatrice, Nebr., and numerous others. Nothing like advertising a good thing.

**The Holy City.**

Believing their public to be more interested in artistic production than in the cost of transporting paraphernalia, Gordon and Bennett do not advertise "trains of cars," or "tons of scenery," yet for every performance of "The Holy City," theatre stages are cleared of all that is generally used the company management provides the scenes which are so beautiful and so universally extolled. There is no band, no day parade, but audiences find that night brings evidences of more sumptuous preparation than is often seen. Confidence and good will champion the efforts of this firm; the second season's presentation of "The Holy City" is eagerly looked for at Gehling Opera House, Monday, April 16th.

**Boy's Composition on Newspaper.**

Newspapers are sheets of paper on which stuff to read is printed. The men look over it to see if their names is in it. The women use it to put on the shelves and such. I don't know how newspapers came into the world The Bible says nothing about editors, and I never heard of one being in Heaven. I guess the editors is the missing link then fellows talk about. The first editor I heard about was the fellow who wrote up the flood. He has been here ever since. Some editors belong to church and some of them to other things. All of them are liars, at least all I know, and I know one. Editors never die. At least I never saw a dead editor. Sometimes the paper dies and the people feel glad but some one starts it up again. Editors never went to school because editors never got licked. Our paper is a mighty poor one but we take it so ma can use it on her pantry shelves. Our editor don't amount to much but my pa says he had a poor chance when he was a boy. He goes without underclothes in the winter, wears no socks and has a wife to support him. Pa hasn't paid his subscription in five years and don't intend to.—Ex.

In Oklahoma, Indian Territory and Texas are vast areas of unimproved land—land not now yielding the crops of which it is capable. The same conditions apply to the towns. Few lines of business are adequately represented. There are openings of all sorts—for mills and factories, for small stores, for banks, newspaper and lumber yards. You have only to get on the ground to prove this. To enable you to do so the Missouri, Kansas and Texas railway offer

Special Homeseekers' Rates:—On February 6th and March 6th and 20th the Burlington makes very low excursion rates to the Big Horn Basin, the North Platte Valley and Eastern Colorado.

Keep Ahead of the Movement:—The Government work is under full headway towards putting water on two hundred thousand acres of land adjacent to the Burlington road, at an average cost of \$25.00. It is possible today to secure homestead lands along these great ditches, in advance of the water. You can also buy from private concerns, very fine irrigated lands, under a full and permanent water supply, at prices ranging \$25.00 to \$40.00 an acre. The history of western irrigated lands shows that their value has increased over one hundred per cent in the past few years. There are areas of irrigated lands in the west that cannot be bought today for \$300.00 an acre.

It Will Pay You to get interested in irrigated land, and to get in touch with the land agents in the North Platte Valley, the Big Horn Basin, the Billings, Montana district or Eastern Colorado. If you will write me for irrigation literature descriptive of any of these localities, I will mail it to you free, together with a list of land agents.
