 Pat Crowe, the Omaha thug and criminal, is out on a lecturing tour. We were told in Omaha last week that he is soon to make the cities along the Missouri Pacific. In the name of the decent citizenship of Falls City we protest against this wretch being granted the privilege of appearing publicly here. We sincerely trust and believe that every public building in town will be closed against him. Let Omaha keep her croaks at home, there is no room for them here.

 The Tribune employs a large force and pays them in full every Saturday night, and we don't think the payment of a just debt worthy of a double column front page, mourning bordered boast either.  
 The county board have concluded to beautify and clean up the interior of the court house and this week began operations on the office of register of deeds. Paper and paint will do wonders for those dingy offices and will certainly be appreciated by the officials who spend their wakeful hours therein. If the county board would turn their attention to the jail and make it at least humane the Sheriff and his deputy would wear a broad smile.

 Many items of interest were crowded out of the paper last week because of the rush of job work. We do not often permit the paper to fall below the standard, but considering the amount of other work turned last week, the wonder is that we printed a paper at all.  
 J. J. Turner came down from Humboldt Tuesday and once more introduced McFarland, the party who threw a stone through the M. P. depot window in this city a short time ago. His late escapade seems to come from an overdose of Humboldt booze for which he was placed in the city bastille. It appears that our neighbors do not keep their public hotel in fitting shape for the fastidious taste of this gentleman and he set fire to the bedding. He was gasping for breath when officials arrived upon the scene and the prisoner was transferred to the county jail. If he finds these quarters more pleasant, we certainly feel sorry for the condition of the Humboldt cooler. Our neighbors are doing their part toward keeping Landlord Richards occupied, he now has two boarders from that place.

 Mohler's nursery across from the Union house is filled with young fruit trees. If you are in the market why not buy of a home nursery. You can get as good trees and as cheap as you can by sending away for them.  
 Last Saturday was a busy day with the merchants. A reporter walked about town with the crowd to see what was doing and the amount of buying we saw would indicate the day to be a record breaker. Lyford's, Wahl's Wahl & Parchen, Hargraves, Clevelands and Reavis & Abbey were busy from morning until night. It was a tired crowd of clerks that welcomed the closing hour.  
 Paul Weaver has invested several hundred dollars in spraying apparatus and proposes to do his part this season. The Weaver orchards are among the most extensive in the county and one good crop would pay large dividends on the effort made toward propagating perfect fruit. The time has come when this matter has become a scientific problem, which has been solved by spraying at the proper time and with the correct solution. Fruit growers admit this fact and are making the proper arrangements to do the work.
