To the wonderful Arkansas Valley of Kansas and Colorado.

On the First and Third Tuesday of each month, Cleaver & Sebold will run excursions to this wonderful valley, where the sunshine is nearly perpetual. The air is dry and pure. The health of the community is marvelous. Beautifully shaded drives abound near the town. Hundreds of small fruit farms make the landscape beautiful and homelike. In season the air is perfumed with the aroma of the thousands of acres of blooming fruit trees. The rippling water of the irrigation canals, the hum of the honey bee and the warble of the songsters, make sweet music for cultured ears. The nicely painted houses and well kept lawns, make a fine appearing town.

There are more shade trees in Garden City than is common in an eastern town. The school houses are immense brick structures and the churches are many and of attractive and substantial build. The country round about is settled with a fine class of people, who live in comfortable houses with neat surroundings. It is an ideal home country; happy are those who live there and happy will be those who come. Go there and add 20 years to your life and they will be twenty happy ones, too. Every farm has its reservoir for irrigation and they are stocked with fish which affords sport in your own yard. Long drives or rides through the irrigated district are not only enjoyable but very instructive. Here is found the highest development of the art of farming. Annual returns of \$50 to \$100 and even more per acre, are common. Steam plows cutting furrows miles in length are in evidence everywhere. Things are done on a large scale here, but there is room for anyone who will work. Many a man makes a living on 10 acres and many a man farms 1000 acres. Lands from \$25 an acre up.

The democratic politicians were a very disgruntled set six years ago when they discovered that the successful war with Spain carried on by the republican administration had made it certain that the lamented McKinley would be re-elected. They had at first been very solicitous to involve the administration with Spain, but after they discovered that prestige to the administration would result they did the best they could, without any treasonable action, in depriving the administration of the glory accumulated. Republicans this year will take that object lesson to heart. There may be trouble following the intervention by Roosevelt in Cuba, and every voter who has the best interests of the country at heart should use his ballot to put Hon. Ernest M. Pollard in the next congress as he will be certain to uphold the president in his policy. The life of the present congress expires next March. If the voters of the first Nebraska district should make the mistake of sending a democrat there and thus assist in turning over control of the lower house to the democratic party, they will be aiding in giving the democracy the opportunity of embarrassing the administration to the extent, at least, of depriving it of any credit for whatever may be accomplished. But we don't believe they will do anything of the kind. This point however, is worth remembering.

This is the sale season. Bills are well enough in their way but experience has proved that a good display add in the newspaper is worth a cart load of hand bills. The recent sales held in Falls City have been well advertised in the local papers and as a consequence have been the most successful sales held here in years.

Elmer Sailor left Tuesday morning for a visit with friends in Oklahoma.

Cheap Farm Land.

Southwest Offers Best Opportunities For Securing Homes.

Many farmers in the Northern and Eastern states are selling their high priced lands and locating in the Southwest. Many who have been unable to own their homes in the older country are buying lands in the new country.

Unusual opportunities exist along the lines of the Missouri Pacific-Iron Mountain Route. The rich, alluvial, delta lands and river bottom lands of Southeast Missouri, Eastern Arkansas, Louisiana and Texas, capable of producing 60 bushels of corn, a bale of cotton, 4 to 6 tons of alfalfa 150 bushels of potatoes, and other grains, vegetables and hay crops, can be bought for \$7.50 to \$15.00 per acre. When cleared and slightly improved will rent for \$4.00 to \$6.00 per acre cash.

Uplands more rolling, lighter soil, adapted to fruit growing—peaches, pears, plums grapes, berries—also melons, tomatoes and other vegetables, can be bought for \$5.00 to \$10.00 per acre in unimproved state. Many places with small clearings and some improvements can be bought very cheap.

Write for map and descriptive literature on Missouri, Arkansas, Louisiana Texas, Kansas or Indian Territory. Very cheap rates on first and third Tuesdays of each month.
