To the wonderful Arkansas Valley of Kansas and Colorado.

On the First and Third Tuesday of each month, Cleaver & Sebold will run excursions to this wonderful valley, where the sunshine is nearly perpetual. The air is dry and pure. The health of the community is marvelous. Beautifully shaded drives abound near the town. Hundreds of small fruit farms make the landscape beautiful and homelike. In season the air is perfumed with the aroma of the thousands of acres of blooming fruit trees. The rippling water of the irrigation canals, the hum of the honey bee and the warble of the songsters, make sweet music for cultured ears. The nicely painted houses and well kept lawns, make a fine appearing town.

There are more shade trees in Garden City than is common in an eastern town. The school houses are immense brick structures and the churches are many and of attractive and substantial build. The country round about is settled with a fine class of people, who live in comfortable houses with neat surroundings. It is an ideal home country; happy are those who live there and happy will be those who come. Go there and add 20 years to your life and they will be twenty happy ones, too. Every farm has its reservoir for irrigation and they are stocked with fish which affords sport in your own yard. Long drives or rides through the irrigated district are not only enjoyable but very instructive. Here is found the highest development of the art of farming. Annual returns of \$50 to \$100 and even more per acre, are common. Steam plows cutting furrows miles in length are in evidence everywhere. Things are done on a large scale here, but there is room for anyone who will work. Many a man makes a living on 10 acres and many a man farms 1000 acres. Lands from \$25 an acre up.

Hold Your Friends.

Having carefully chosen a few friends, we should never let them go out of our lives if we can by any possibility retain them. Friendship is too rare and sacred a treasure lightly to be thrown away. And yet many people are not careful to retain their friends. Some lose them through inattention, failing to maintain those little amenities, and kindnesses which cost so little, and yet are hooks of steel to grapple and hold our friends. Some drop old friends for new ones. Some take offense easily at imagined slights or neglects, and ruthlessly cut the most sacred ties. Some become impatient of little faults, and discard even truest friendships. Some are incapable of any deep or permanent affection, fly from friendship to friendship like birds from bough to bough, but make no nest for their hearts. There are a great many ways of losing friends. But when we have once taken them into our lives we should cherish them as rarest jewels. If slights are given, let them be overlooked. If misunderstandings arise, let them be quickly set right.—Selected.

The opponents of Congressman Pollard are ringing in side issues to defeat him but the voters of this district will do well to keep in mind that Congressman Pollard is not the issue. His opponent is a democrat and consequently a free trader. He would meddle with the tariff and with the business conditions that are responsible for the prosperity of the country and bring in its place distress if elected. Congressman Pollard belongs to and works with the party whose policies have promoted the welfare of the nation. He represents a party whose actions speak louder than words. His appeal to the people for their votes is based on what his party has done and is doing and is wisely administering the af-

fairs of government while it has had complete control. If the people want the government carried on in the future the same way it has been in the past—if they want to experience more of republican prosperity and of the Roosevelt "square deal" to everybody it is their duty to vote for the man who represents these things—Congressman Pollard.—Nemaha County Republican.

Cheap Farm Land.

Southwest Offers Best Opportunities For Securing Homes.

Many farmers in the Northern and Eastern states are selling their high priced lands and locating in the Southwest. Many who have been unable to own their homes in the older country are buying lands in the new country.

Unusual opportunities exist along the lines of the Missouri Pacific-Iron Mountain Route. The rich, alluvial, delta lands and river bottom lands of Southeast Missouri, Eastern Arkansas, Louisiana and Texas, capable of producing 60 bushels of corn, a bale of cotton, 4 to 6 tons of alfalfa 150 bushels of potatoes, and other grains, vegetables and hay crops, can be bought for \$7.50 to \$15.00 per acre. When cleared and slightly improved will rent for \$4.00 to \$6.00 per acre cash.

Uplands more rolling, lighter soil, adapted to fruit growing—peaches, pears, plums grapes, berries—also melons, tomatoes and other vegetables, can be bought for \$5.00 to \$10.00 per acre in unimproved state. Many places with small clearings and some improvements can be bought very cheap.

Write for map and descriptive literature on Missouri, Arkansas, Louisiana Texas, Kansas or Indian Territory. Very cheap rates on first and third Tuesdays of each month.

Mixed Farming and Dairy ing--Become Independent

Every man who wishes to better his condition in life, or who desires to start his sons on the road to success, and especially every renter who wants to own land, should send a postal today for a free copy of the folder, "A Good Dairy District."

It tells about a new region just coming into prominence as a successful dairying country. Land is very cheap, pure water and nutritious grasses are abundant, there is a market for all products at good prices, the climate is equable and healthful and the settlers already there are desirable neighbors.

Very cheap round trip tickets the first and third Tuesdays of each month affords a splendid opportunity for investigation.

Don't forget to write me for the folder and also send me the names of your eastern friends who want to come west.
