## The Fairy Land of Jewels

The wonder working of Queen Mab herself with all her fairy subjects skill to aid her, could not equal the production of the Goldsmith's art as it is understood today.

For delicacy of form and coloring, for grace of design, for multiplicity of shapes and uses, modern jewelry has reached the highest mark.

Our connection with those producers of beautiful jewelry is very close and we can offer their creations to our townspeople as soon as New York can see them. Just now we are showing new ideas in Bracelets. Fall designs in plain and colored gold, with or without sets.

Rings—in all the latest designs and of all prices. None but solid gold in stock. Call and see our stock—first-class in every detail.
