A SQUARE DEAL!

Is the popular cry today in civil life, in political life and in business life. Men are influenced by this principle because it appeals to their honor and integrity and inspires them to noble and greater things, thus placing achievement on a higher plane and in a purer atmosphere. This is no less true in the commercial world than elsewhere. The merchant whose ideals are high, whose ambition is to reach the top, realizes that he must give his customers the best possible value for their money and misrepresent nothing. If we stand for anything it is business integrity and "A SQUARE DEAL" both to you and to ourselves and our aim shall ever be to give all we can and the best we can for the money. On this basis we invite you to our store and ask that you examine our goods and compare quality and values. If we treat you fair and square give us a share of your patronage.
