A Live Wire

Every nerve is a live wire connecting some part of the body with the brain. They are so numerous that if you penetrate the skin with the point of a needle you will touch a nerve and receive a shock—pain it is called. Aches and pains come from a pressure, strain or injury to a nerve; the more prominent the nerve the greater the pain. When the pain comes from a large nerve it is called **Neuralgia** whether it be the facial nerve, or the heart, stomach, sciatic or other prominent nerve branch. To stop pain, then, you must relieve the strain or pressure upon the nerves. Dr. Miles' Anti-Pain Pills do this.

"I suffered intense pain, caused by neuralgia. I doctored and used various medicines without getting relief until I began taking Dr. Miles' Anti-Pain Pills. They did me more good than all the medicines I ever used. They never fail to cure my headaches, and their use never leaves any bad after-effects."

MRS. W. M. BECKMAN,
567 W. 4th St., Erie, Pa.

Dr. Miles' Anti-Pain Pills are sold by your druggist who will guarantee that the first package will benefit. If it fails, he will return your money. 25 doses, 25 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind.

THE TRIBUNE
....\$1.00 a Year....

Worth While.
Speak kindly of your friends and you'll never regret it.
True love and wine improve with age.
Kissing is not necessarily dangerous, but frequently father is.
Love is intoxicating, but few would sign a pledge of total abstinence.

If you don't extend a helping hand you shouldn't expect one to be offered to you.
Flirting is innocent sport—unless you get tangled in the web.
Education may not make the man but it will go a long way in that direction.

If you want to be happy try to make other people feel as joyful as yourself.
Excuses are so handy that everybody borrows them.
Half the pleasure in having a vacation is in getting back to work.

A certain young lady is authority for the statement that love makes the parlor dark and the heart light.
Every honest man has to work for a living or steal it.
Any sudden turn in the tide of fortune will often show what stuff one is made.

True manhood comes only after correct tests.
From wealth to poverty will bring a test to a man that few stand bravely.
When a man's life sails along smoothly before fair winds, no trouble, no reverses, no temptations it is easy to be a nice, polite, pleasant fellow.

Most men think more of a good big meal than they do of reading the Bible or going to prayer meeting.
Be careful of the man without any religion and also careful of the man who gets religion and makes a grand stand play of it.

People who go on Sunday excursions must not expect to find a prayer meeting crowd. They must take what they find.
Education commences at the mother's knee, and every word spoken in the hearing of little children tends toward the formation of character.—Hosca Ballou.

A girl should not imagine every strange man who looks at her wants to start an acquaintance. Sometimes he's wondering why she didn't rub some of the powder off her nose, wash her neck and ears and stop lacing so tight.

The word Conscience, (Greek *syneidesis*), is derived from the Latin, "consciens, conscientia" conscious, conscientiousness, but neither Greek nor Roman used it in our sense. It had no religious meaning. Was once used in the Septuagint Version of the Old Testament for the Hebrew word "Madda" (Ecc. 10, 20) translated thought, knowledge, science, in the King James version.

The man who loves his work finds little use for the clock. I once knew a carpenter that stopped driving a nail when the whistle blew. He is still a board roustabout with a trained ear for the dinner horn. Working by the clock because you must work, is slavery personified. If you do not take pride in the work you are doing, quit it and go at something more interesting and fitting.

Hi Henry's Greatest Minstrels will appear at Gehlings Theatre on Friday Nov. 16. The press all along their route claim they are better than ever. This is certainly saying a great deal as every one remembers what a sensation they caused on their former visit about three years ago and the fine performance that was given. So secure seats at once if you want to witness the greatest minstrel performance Hi Henry has ever presented.

True Enough.
Next to a cemetery at midnight about the loneliest sight is a hammock on the front porch after the first big frost.—Ex.

Market Letter.
Kansas City Stock Yards, Nov. 12, 1906. Cattle receipts today are larger than last Monday, and prospects are good for an increased supply all week as compared with last, but the total is still moderate, 16,000 head today. The general market advanced 10 to 15 cents last week, covering all classes, and is steady to strong today, stockers and feeders a little higher. This class has not advanced along with killing cattle this fall, as the demand has not been much ahead of the supply at any time. The dry weather lately has cut down the inquiry from certain localities the last month or six weeks. Feeders cannot forget the losses of recent years, and although the outlook for high cattle prices is better now than it has been for ten years or more, cattle feeding is not popular. Old timers at the yards believe we are entering on a period of high prices in cattle. Hogs and sheep have already benefitted by the increasing demand with which the production has not kept pace and they say cattle raising and feeding is not progressing at as great a rate as has the demand for the last several years. Top steers sold today at \$6.00, the highest price in two months, and the first time the market has been as near fully tested. Extra prime steers would beat the price today, Good to choice steers sell at \$5.60 and upwards, short fed steers \$4.40 to \$5.25, considerably better than usual at this time, grass steers, \$3.60 to \$5.25, cows \$2.50 to \$3.75, veals up to \$6.50, heavy calves a quarter higher than a week ago, at \$3.00 to \$4.50, stockers \$3.00 to \$4.25 feeders \$3.50 to \$4.50.

Hog prices are working downward, but in a slow way, and with many reactions. Run is 8000 to today, market 5 lower, top \$6.17 1/2, bulk \$6.10 to \$6.15. Packers complain bitterly that their Kansas City droves are costing more than at any other market, not excepting St. Louis or Chicago, and also state that the quality received here is the poorest of all. Run last week was 45,000 head, only two thirds the supply same week last year, and it looks like a high range of prices would be maintained in spite of all the packers can do.

Sheep and lambs continue to come pretty freely, but most of the supply now is the last of the season from the range, and not good quality. Some fed westerns are beginning to come, lambs selling at \$6.75 to \$7.50.

Germain-Poland.
Married, at the court house in Pawnee City, on Thursday, Nov. 7, 1906, Judge Barton officiating, Mr. John F. Germain and Miss Clara I. Poland. The parties to this union are well known and highly respected young people living near DuBois. We extend congratulations.—Pawnee Chief.

Death of John Fellers.
Word has been received by relatives at Table Rock of the death of John Fellers, which occurred at his home in the state of Washington, from an attack of pneumonia. The deceased was born and reared at Table Rock, removing with his family to the far west just a few years ago.—Pawnee Chief.

SEEN AT THE DEPOT GATES
There Are Frequent Blockades When Women Hunt for Their Tickets.

E. J. Sanford, president of the Union Depot company, is in a mood to supply a stocking room for women travelers. He has nearly reached this conclusion because of many rather embarrassing incidents which have occurred in the passageways leading to exit gates, reports the Kansas City Star. "For," as he says, "women don't have many pockets, and they hide their tickets and money in so many places about their clothing. When they go after their valuables, it takes time to reach them. Gatemmen don't have to tell them to 'hurry,' because it is usually the hurry that delays them."

A few days ago, a young woman walked to the gate operated by Curtis Reaves, expecting to take a Santa Fe limited train for New Mexico. The gateman politely asked to see her ticket. "Why, do you have to see it?" she asked.

"Yes, madam," Reaves replied. "There are two Santa Fe trains out there, and I want to see how your ticket is routed."

The young woman blushed. She carried several bundles in her arms, and she looked at them, looked at the gateman, and looked appealingly to a woman near.

"Come, hurry!" Reaves insisted. "There are others behind you waiting to get out."

By this time the young woman's face and neck had taken on a carmine hue. She clung to her bundles. A crowd had collected behind her and persons were becoming impatient. Slowly the young woman laid her bundles down beside her and reached for her ticket and took it from her stocking.

Not long ago John Wallenstrom, train crier, while doing extra duty at a gate, was confronted by a young woman going to Chicago. Wallenstrom asked for her ticket, and she "made a face" at him. She insisted that she be allowed on the platform without first showing her transportation.

"Sorry, madam," he said, "but orders are to make everyone show a ticket. You'll have to either get yours or go back in the waiting room."

The young woman saw he was in earnest. "All right," she replied. She laid her grip beside her, took hold of the bottom of her skirts and went after the ticket. In a dainty little pocket attached to a garter she had it. And she was so nervous she couldn't open the clasp on the purse. She became excited. "I'm getting nervous," she said.

But she got the purse open and showed her ticket. She was angry and "said things," about the depot and about the gateman.

"They carry their tickets, sometimes," Wallenstrom said, "in places where they have great difficulty in getting them. One woman came to a gate and when she learned she had to show her ticket, she began digging in her bustle. She worked and worked, but no ticket. Finally, she became frightened, believing she had lost it. I didn't know what would happen, so to avoid further embarrassment I sent her to Mrs. Shull, the matron. They found it just where she had fastened it—in her bustle."

"There is hardly a day passes that women do not come to the gates with their tickets concealed in their stockings. Some of them think we mistreat them when we ask that the tickets be shown."

Many of these cases have been reported to Mr. Sanford. Gatemen have suggested that a stocking room be provided. "It would help the women," Mr. Sanford said.

RAILWAY RUMOR.
India's railway building for the next three years will amount to about \$50,000,000 per annum.
The total length of railways in Japan is now over 4,500 miles. The gauge is three feet six inches.
The largest locomotives require more than 100 gallons of oil a year to keep them in smooth running order.
J. P. Hall, of the Santa Fe, is organizing an association composed of men who were once messenger boys. The list, it is said, includes Andrew Carnegie, William C. Van Horne, Marvin Hughitt, W. A. Gardner, Col. Robert C. Clowry and A. J. Earling.

Statistics of the railway mileage of Europe show that the total mileage of the continent and the United Kingdom on January 1, 1905, amounted to 188,797 miles, being an increase of 2,098 miles over the corresponding date of 1904.
Matrimonial tickets are supplied by the Canadian Pacific railway to those settlers in the Northwest territory who wish to make a journey in order to get married and on presenting the return coupon and a marriage certificate a man is entitled to free transportation for his bride.
In recent years the construction of railways proceeded in Germany at the rate of about 621.5 miles a year. The entire mileage exceeds at present 24,183 miles. The electrification of railways is still confined to a few suburban lines, where the system works satisfactorily.
Mammoth Freight Car.
The biggest freight car in the world is being constructed in the St. Paul railroad shops at Milwaukee. The largest freight cars at present are of 100,000 pounds' capacity and are looked upon as monsters. The new car will have a capacity of 200,000 pounds. It is being built to transport a 90-ton section of a base for a blast engine which is being shipped to Bethlehem, Pa. The car is 41 feet long, has four instead of two trucks, and sixteen instead of eight wheels.
