

**HOME-MADE BEDSPREADS.**

**Suggestions for the Treatment of Different Beds and What Materials to Use.**

A very pretty one was recently made from a linen sheet. A hem six inches wide was turned up on three sides of it, and hem-stitched. A simple scalloped and then worked all around it on the double edge and cut out. A design showing bunches of chrysanthemums and leaves, joined by a running design of ribbon, was made exactly to fit the top of the bed—and a similar design was put across the upper end to go over the bolster roll. The work was done in heavy, white mercerized cotton—the ribbon being darned in, and the flowers and leaves heavily stuffed and worked in satin stitch.

For a yellow and white room the spread was made of six yards of plain yellow wash material, 36 inches wide, costing eight cents a yard. This was cut into six pieces, each one yard square, and joined together, three pieces on each side, with insertion about three inches wide. In the center of each square was worked a conventional figure.

For an old-fashioned four-post mahogany bed a handsome India cotton print was used. This came 12 feet long and six wide. The ground was white, with gay red and blue figures of birds and flowers across the two ends. The pattern took the form of a wide border. These two ends were cut off and sewed along the upper part of the two sides, the square openings at the corners being left for the posts. The whole spread was edged with some old lace and insertion ripped from discarded curtains.

Another spread was made from Irish unbleached linen, which comes 90 inches wide. This spread was made three and one-half yards long so as to allow of an extra piece to put over the bolster roll. The whole surface was worked in a Mount Welsh design, using the heavier grades of knitting cotton; the edges of this spread were hemstitched, but could be scalloped.

**A FEW HEALTH HINTS.**

**Green Vegetables Highly Recommended and Hot Water a Great Aid to Digestion.**

Green vegetables and salads will counteract a tendency to pimples and other skin eruptions. Sufferers from eczema should eat sparingly of fruit, which, as a rule, contains too much acid to be suitable for them.

The best toilet preparation in the world is plain hot water. Drink a glass of it every night if you want a good digestion, clear complexion and a good sleep.

If the hair is in a very weakened state, as it is after illness or fever, brushing, clipping and vigorous shampoos are too severe treatment for it.

Massage the scalp for five minutes every day, or for half an hour twice a week, rubbing a very little vaseline into the roots of the hair. Let the hair hang loose and free as often as possible and dress it as simply as possible, so that much handling will not be necessary. Give it a rest. Its weak condition demands that it be left alone instead of being fussed over.

In spite of the danger of the old-fashioned punishment of a box on the ears, it is one which is often inflicted on troublesome children by their parents, without the smallest regard of consequences. The parents are ignorant, not cruel, but they ought to know that such a punishment is likely to cause lifelong injury. Deafness is probably the most frequent ill result of ear-boxing, but it may cause injury to the brain and insanity.—Farmers' Review.

**Stewed Veal with Barley.**

Put a knuckle of veal in a saucepan with a bit of butter the size of a walnut, and fry the meat a nice brown all over. Just cover the meat with quite boiling water, put in a teaspoonful of barley, two heads of celery, cleaned and cut in inch lengths, two carrots, two turnips, two large onions, a sprig of lemon thyme, marjoram and two sage leaves. Let this simmer for two hours; put the meat on a hot dish, season the vegetables with pepper and salt, pour over the meat, and serve with a tablespoonful of finely chopped parsley sprinkled over.

**To Remove a Grease Spot.**

Here is a new way to remove a grease spot, which answers excellently: First place a double thickness of blotting paper on an ironing board. Lay the material on this and sponge well with benzine. Now put two more thicknesses of blotting paper on top and iron with a moderately hot iron. Remember that benzine is inflammable, so don't do this near a fire or light, and see that your flatiron isn't at scorching heat.

**Present for a Baby's Basket.**

You can make a very dainty little present for the baby's basket by taking ribbon an inch wide in pink or blue, and sewing it in four long loops, leaving enough ribbon at one end to form a rosette at the top. On each loop place a crocheted silk ring, about the size of a quarter, and attach to these rings safety pins of various sizes. This is easily made, inexpensive and always a welcome gift.

**Little Moire Coats.**

Moire is lighter than taffeta for the little silk coat that is to be worn this spring. Falte, which always comes in with moire, is used for the same purpose. The coats range all the way from little postage stamp jackets to be worn with corselet skirts through the ordinary e-ton and the little sack coat to all lengths and degrees of coats with skirts.

**MAKING A GOOD LAWN.**

**The Soil Must Be Moist and Contain a Considerable Percentage of Clay.**

The department of agriculture has in press a number of farmers' bulletins which should appeal to the farmer. One of these, which will be Farmers' Bulletin, No. 248, is written by L. C. Corbett, the horticulturist in charge of the Arlington experiment station, on "The Lawn." Mr. Corbett contends that the lawn is a signal of the inner soul of the householder, showing an appreciation of beautiful home surroundings. A lawn is the accomplishment of every effort on the part of man to beautify the surroundings of his abiding place. The great increase of interest in suburban and rural life has caused a corresponding increase of interest in matters pertaining to the making and maintenance of lawns. Suburban railroads, the extension of electric lines into the country and the return of man to natural ways of living are all features contributing to the growing interest in matters pertaining to lawn making.

Mr. Corbett believes that a lawn should be beautiful and at the same time useful. Its beauty depends on the contour of the land, the color and texture of the grass, and the uniformity of the turf. The use of the lawn is to provide a suitable setting for architectural adornment and landscape painting.

The ideal soil for grasses best suited for lawn making is one which is moist and contains a considerable percentage of clay. A strong clayey loam or a sandy loam underlaid with a clay soil is undoubtedly the nearest approach to an ideal soil for a lawn. Since the lawn is a prominent feature it is hardly possible to make the soil for the lawn too rich. Stable manure, composted and rotted and which is as free as possible from detrimental weed seeds is undoubtedly the best material to use in producing the desired fertility of the soil. After a lawn has been established and it has gone into winter quarters, it is well to give the young grass a mulch of well decomposed stable manure which shall not be heavy enough to disfigure or mar the lawn, but should be so fine and well decomposed that it will be carried beneath the surface of the grass by the rains and snows of winter, leaving very little rough or unsightly matter to be raked off in the spring.—Prairie Farmer.

**FOR BEAUTY OF THE EYES**

**Wonderful What Happy Results Follow on a Protracted Walk in the Open Air.**

It was a matter of surprise to Emerson that the following little piece of advice by De Quincey should not have attracted more attention: "The depth and subtlety of the eyes varies exceedingly with the state of the stomach, and if young ladies were aware of the magical transformation which can be wrought in the depth and sweetness of the eye, by a few weeks' exercise, I fancy we should see their habits on this point altered greatly for the better."

He then describes the effect of walking as he had noted it in the eyes of the poet Wordsworth. "I have," he says, "seen Wordsworth's eyes sometimes affected powerfully in this respect. His eyes are not under any circumstances bright, lustrous, or piercing, but after a long day's toil in walking, I have seen them assume an appearance the most solemn and spiritual that it is possible for the human eye to wear. The light which resides in them is at no time a superficial light, but, under favorable accidents, it is a light which seems to come from a depth below all depth; in fact, it is more entitled to be held 'the light that never was on land or sea'—a light radiating from some spiritual world, than any that can be named."—Good Health.

**The Old Morning Glory.**

The old-fashioned but ever popular morning glory still claims a prominent place as a quick-growing and beautiful vine for either foliage or flowers. Appearing every morning in all the richest shades of white, blue and red, often variegated and striped, the silky flowers add much to the beauty of the home and materially increase the charms of summer and autumn mornings. The morning glory has recently undergone some improvement at the hands of the professional florists, but it is an easily cultivated flower and should be a part of the floral display of every home.

**Baked Rhubarb.**

Rhubarb is almost a specific for curing the various small indigestions that accompany the early spring season. And it is so much nicer when baked than stewed, although I usually say "stewed" as a breakfast dish. But if peeled, cut into inch bits and plenty of sugar sifted over, it is set in a rather cool oven and allowed to cook it will be found so much less trouble and more delicate. Stir once in a while with a silver fork, and do not add any water. When cold it may be served in patty shell or tartlets, in a bowl that has been lined with macaroons or in pies.

**For Cleaning Bottles.**

Salt and vinegar make an excellent solution for cleaning bedroom water bottles or wine decanters. A dessert-spoonful of rough salt put into a wine decanter, moistened with vinegar and well shaken generally removes all stains.

**Protect the Trees.**

Trees should be protected during the summer as well as through the winter. The tree veneer does the work. The veneer is a guard against sun scald, borers, mice and rabbits.

**FARGO.**

Mrs. Louisa Nitzsche accompanied by Pearl Lawrence of Winnebago valley were Falls City visitors Saturday last.

Mr. Brinegar a prominent ranchman of Idaho spent several days visiting at the home of M. C. Brinegar of Winnebago Valley.

Henry Hershberger has his large new barn completed. It is a fine building and large enough to hold all the farming necessities for a large farm.

Mrs. Emily Fischer visited at the home of her daughter, Mrs. Annie Schmidt election day.

Mrs. Elmer Schock spent several days at the home of Mrs. John Santo of Rulo township.

Faithfulness of purpose re-elected Cass Jones to the legislature.

Being tried and true Chas. Zoeller could not be defeated by the democratic host.

John Gentry sold his corn in the field to Geo. E. Taylor for \$190.

John Helfenbine was a business caller in Rulo Tuesday.

Being opposed to the purchasing of a new road grader deflected Louis Sues for county commissioner.

J. H. Brinegar of Rulo spent Sunday with his parents and friends at Winnebago valley.

The citizens of Fargo all voted election day.

Emel Saal of Falls City had business here Tuesday.

Freda Paul, Anna Fischer and Mary Thiltges of Fort Hazel are among the many who are being taught music by Mary Hauks of Winnebago Valley.

Many reports are in claiming an average of 60 to 75 bushel yield of corn per acre. Farmers are pushing the harvesting of same with all haste. Foster says get your corn in the crib by November 15th or much will be lost by heavy snows. Let us watch it.

Work on Adam Bickels new barn is progressing nicely. Virgil Chipman being the master mechanic.

Frank Bauman is helping build a country bridge above the Bilby ranch this week.

Grandmother Fritscher strayed away from home Friday afternoon. She was seen at the Fort Hazel, school house during the afternoon. An all night search was made for her and she was found unharmed on the streets of Falls City Saturday morning. Considerable excitement and anxiety, but it was soon forgotten. The old lady is getting very old and will be watched more closely hereafter.

**The New Pure Food and Drug Law.**

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. For sale by all druggists.

**An Open Look.**

Keep your inner self so free from thoughts that need covering as to be able to look clearly and unflinching out upon your daily life. A clear, outreaching look, bright and unsullied, is a good recommendation. Some boys and young men get so steeped in hidden sins that they can keep this open look even after the waters of their soul are stirred with dark wings, but this is possible only by long and careful tutelage. Do not try your hand at it, for ten to one you will fail, and the ones you try so hard to have think differently will think the exact truth, and set you down, not only as a wrongdoer, but as a deceitful wrongdoer, who, everyone knows, is still more despised by honest people.—Selected.

Preventives, as the name implies, prevent all Colds and Grippe when "taken at the sneeze stage." Preventives are toothsome candy tablets. Preventives dissipate all colds quickly, and taken early, when you first feel that a cold is coming, they check and prevent them. Preventives are thoroughly safe for children, and as effectual for adults. Sold and recommended in 5 cent and 25 cent boxes by all dealers.

**Rheumatism**

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and paralyze this deplorable disease. In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfect, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. These sand-like granular wastes, found in Rheumatic blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

**Dr. Shoop's Rheumatic Remedy**

**Burlington Bulletin.**

NOVEMBER 1906.

**Round Trip to the Coast:**—Daily Tourist rates in effect all winter to Pacific Coast destinations with variable routes.

Chicago and return:—One fare plus \$2.00 for the round trip December 1st to 4th inclusive for the International Live Stock Exposition.

To the East and South:—Very low homeseeker's and Winter Tourist excursions through the Autumn and Winter to various destinations throughout the south and southeast.

Visit the Old Home:—Low excursion rates to the old home points in Illinois, Iowa, Wisconsin, Missouri and other middle states destinations, Oct. 9th and 23rd, Nov. 13th and 27th, limit thirty days.

Homeseekers' Excursions:—Frequently each month to Western Nebraska, Eastern Colorado, Big Horn Basin, dry land farming destinations or irrigated sections.

Dry Land Farming:—Send for Folder and get hold of a quarter section of cheap western land before it is too late.

Free Kinkaid Lands:—Write Clem Denver, Agent Burlington's Homeseekers' Information Bureau at 1004 Farnam St., Omaha, about getting hold of a free section of Kinkaid lands now being restored to the public domain.

E. G. WHITFORD, Agt.

**This is Worth Remembering.**

As no one is immune, every person should remember that Foley's Kidney Cure will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. For sale by all Druggists.

**Notice of Settlement.**

In the County Court of Richardson County, Nebraska. In the matter of the estate of August Weimer, deceased. To the Creditors, Heirs, Legatees and all others interested in said estate. Take notice that John Weimer has filed in said Court a report of his doings as Executor of said estate for his final settlement thereof, also filed a petition for an order of distribution of the residue of said estate in his hands.

It is ordered by the Court that the same be heard in the County Court room in said County on the 17th day of November 1906, at 2 o'clock p. m., when and where all parties may appear and oppose the same. Ordered further, that upon the approval of said report, a decree of distribution of said residue will be made to the parties entitled thereto.

By order of the court dated October 27th, 1906. JOSEF GAGNON, County Judge.

**Cheap Farm Land.**

Southwest Offers Best Opportunities For Securing Homes.

Many farmers in the Northern and Eastern states are selling their high priced lands and locating in the Southwest. Many who have been unable to own their homes in the older country are buying lands in the new country.

Unusual opportunities exist along the lines of the Missouri Pacific-Iron Mountain Route. The rich, alluvial, delta lands and river bottom lands of Southeast Missouri, Eastern Arkansas, Louisiana and Texas, capable of producing 60 bushels of corn, a bale of cotton, 4 to 6 tons of alfalfa 150 bushels of potatoes, and other grains, vegetables and hay crops, can be bought for \$7.50 to \$15.00 per acre. When cleared and slightly improved will rent for \$4.00 to \$6.00 per acre cash.

Uplands more rolling, lighter soil, adapted to fruit growing—peaches, pears, plums grapes, berries—also melons, tomatoes and other vegetables, can be bought for \$5.00 to \$10.00 per acre in unimproved state. Many places with small clearings and some improvements can be bought very cheap.

Write for map and descriptive literature on Missouri, Arkansas, Louisiana Texas, Kansas or Indian Territory. Very cheap rates on first and third Tuesdays of each month.

Address, TOM HUGHES, T. P. A., Omaha, Neb., or H. C. TOWNSEND, G. P. & T. A., St. Louis, Mo.

**COAL AND WOOD**

We handle Pennsylvania Hard Coal all sizes. Spadra Arkansas Grate size and different kinds of Soft Coal. Wood prepared for the stove and Cord Wood. Flour, Feed, Baled Hay and Straw, Lump Rock Salt, Michigan barrel Salt. Cash paid for Walnuts, Potatoes, Butter, Eggs and Poultry. Yours For Business,

**O. P. HECK**

**PIANOS BALDWIN BROS.**

A full line of the Small Musical Instruments, Latest Sheet Music, Edison and Victor Records.

We also carry a large stock of

**SEWING MACHINE SUPPLIES**

**Falls City Music Company**

Opposite Court House

**EVERYTHING UP-TO-DATE**

This is our motto not only in style, but in material and workmanship as well.

When you wear a suit or overcoat made at Wilson's you may be assured that none are better dressed than you.

**ALWAYS BEAR IN MIND THAT A**

Tailor made suit will wear as long as two Hand-me-Downs and they always hold their shape and look dressy. The result is that it pays to dress well and look neat at all times.

Call and examine our extensive line of patterns and get our prices, we are satisfied you will look no farther.

**WILSON THE TAILOR.**
