## The Great Second Oklahoma is the Pan-Handle in Northwest Texas

There is no place today in the United States that is attracting

the attention of homeseekers and investors as is the great

fertile prairies of Northwest Texas, lying just across the Arkansas river southwest of Oklahoma. Thousands of people are

going into this rich agricultural country on every excursion, as

they did into Oklahoma. If you will go with us on our next

excursion we can sell you fine land for \$12.00 to \$20.00 per

acre that will double in value in much less time than it did in

Oklahoma. There is no finer climate on earth. You can work

the year round. You do not have to house and feed your

stock six months during the year. One crop will pay for the

land. We are better equipped for handling these lands than

any firm handling the same, as we have our own special train

equipped with dining and sleeping cars, also our own hotel and

livery barn equipped with good rigs and six automobiles that

cost \$24,000.00. If you have a little loose money (as it only

requires a small payment down and from 10 to 20 years in

which to pay the balance) we can show you land that you will

not refuse to buy, as it is rich and level, fine climate, plenty of

good water from 15 to 60 feet. Come go with us on Tuesday,

January 15th, as the railroad fare is only \$21.65 for the

round trip. Sleeper only \$2.00 for the round trip. Good

meals on train cheap. Come go with us, we will not only

make you money but will show you a good time, one that you

will never regret. Do not put this off as this country will all

be settled up inside of 3 or 4 years, and your land will double

in value, as the immigration to this country the past year was
