H. Shoopman of Firth, who was helper here in C. E. Seley's absence, has gone to Hebron, where he will work as helper at the depot.

Twenty-Four-Hour.

In answer to the many inquiries in regard to how this administration feels about an all day and night electric light run, will say, that we are in favor of it, and would put same on at once, if we had the necessary machinery. We have figured the expense of an all night run, and have every reason to believe that the night run alone would not quite pay, but by putting on both the day and night run, we are quite confident that the increase in business would bring in a sufficient sum to more than pay the additional expense of such a run. If an all day and night run can be brought about without increasing our taxes, that is to say, that the parties demanding this additional service are willing to pay for same, then nobody surely has any kick coming, but right at this time we have not the necessary money to buy the machinery that we think should be added, before putting on the day run, but I believe that we have everything so arranged now, that by this time next week Falls City can boast of having an all night run. Our engine has been running for eight years without being repaired and some of the parts were badly worn, but they have all been made new, and she is in as good condition today as when first installed. An engine is something like a man, she may be good for fifteen hours a day for three hundred and sixty five days in the year, it is impossible. She needs rest and certain parts will need adjusting which could not be done while the machinery is in motion; therefore, it is impossible just at this time to put on the day run, but there is no question but that it will be inaugurated in the near future, and not without any expense whatever; only to those parties benefited. We could at present buy a small engine, that in our judgment would not answer the needs of our city for more than a year or two; this we do not consider busi-

nesslike, but we should add a few hundred dollars more, and then we would have something that will answer the needs of our growing city for years to come.

A city like this, with all of her wealth and splendor, can well afford anything that will add to the comfort of its citizens, and at the same time increase the protection of their property and their business possibilities.

G. M. BARRETT, Mayor.

Harlow has can corn 5c, 10c, 15c per can.

The Great Second Oklahoma is the Pan-Handle in Northwest Texas

There is no place today in the United States that is attracting the attention of homeseekers and investors as is the great fertile prairies of Northwest Texas, lying just across the Arkansas river southwest of Oklahoma. Thousands of people are going into this rich agricultural country on every excursion, as they did into Oklahoma. If you will go with us on our next excursion we can sell you fine land for \$12.00 to \$20.00 per acre that will double in value in much less time than it did in Oklahoma. There is no finer climate on earth. You can work the year round. You do not have to house and feed your stock six months during the year. One crop will pay for the land. We are better equipped for handling these lands than any firm handling the same, as we have our own special train equipped with dining and sleeping cars, also our own hotel and livery barn equipped with good rigs and six automobiles that cost \$24,000.00. If you have a little loose money (as it only requires a small payment down and from 10 to 20 years in which to pay the balance) we can show you land that you will not refuse to buy, as it is rich and level, fine climate, plenty of good water from 15 to 60 feet. Come go with us on Tuesday, January 15th, as the railroad fare is only \$21.65 for the round trip. Sleeper only \$2.00 for the round trip. Good meals on train cheap. Come go with us, we will not only make you money but will show you a good time, one that you will never regret. Do not put this off as this country will all be settled up inside of 3 or 4 years, and your land will double in value, as the immigration to this country the past year was over a million. Think of it, and they must have some place to live. Remember that we will run these excursions every first and third Tuesday of each month until these lands are all sold. We will leave here over the Missouri Pacific at 1:16 p. m., for Kansas City where we will take our special train over the Santa Fe. Do not fail to take advantage of this opportunity to get a home or make a good investment. Do not forget our excursion dates to the Pan-Handle and to Dickinson and all other central counties in Kansas.

WHITAKER BROS.
FALLS CITY, - NEBRASKA
