TO CITIZENS OF OTOE AND SURROUNDING COUNTIES

We take this method of calling attention of parents and others interested in education, to the Nebraska Business University, a high grade business training school, which was secured through the influence of the undersigned and other prominent citizens.

The purpose of the University is to furnish the young people of this and surrounding counties with a thorough and practical business education, that will enable them to take hold of the ordinary affairs of life and meet the requirements of business men in a satisfactory manner.

Mr. Toland, the manager of the Nebraska Business University, has a national reputation as an educator, and is the largest individual owner of business colleges in the United States.

Eastern Nebraska, Western Iowa and Northwestern Missouri have long needed such an institution, and now that we have established a school of business training, modern, practical and equal to the very best; where a thorough education can be secured at a tuition rate as low as consistent with the high character of the work; near your home and where you can secure good homes with private families, at reasonable rates; we feel justified in soliciting your patronage.

Prospectus and full information can be had by addressing Nebraska Business University, Nebraska City, Neb., and a perusal of same will satisfy anyone that our University offers more positive proof of superiority and greater inducements to young people desiring to prepare for high-grade positions, than any similar institution in Nebraska, or surrounding states.
