

Meet Requirements

If a pure clothes law should be passed and pure clothes inspectors appointed by the government, special honorable mention would be given to the **XTRAGOOD** brand we sell. The reputation of our goods would be immensely increased. Everyone would want to buy of us.

Moreover, if such laws required the strictest sanitary precautions on the part of the makers, and prescribed a high standard of quality for linings and cloths, and called for a certain grade of tailoring for garments at each price, from the lowest to the highest, we would be found to exceed requirements in every particular.

For Boys Who Kill Birds.

Some boys were seen the other day near the park not far from town killing birds. When asked by a local bird lover what kind they were killing the replied that they were killing sparrows. They thought, no doubt, the birds were the imported birds. But the english sparrows do not dwell about the woods outside of cities. They live near buildings. The boys were, without doubt, killing song sparrows, which are among our sweetest singers and most useful birds. Every year these birds destroy uncounted numbers of injurious insect in our lowlands.

The English sparrows may be known in this way: The male is rather a bulky brownish gray bird, with a black choker or bib on his throat and chest; the female is slightly smaller, and her breast is soiled white or dirty gray without any black markings. They stay about towns, country residences and large bridges. They are seldom found far from human habitations. Therefore the chances are that little brown birds in out-of-the-way places are American sparrows, and ought to be spared.

Two of our native species of sparrows are often found in town—the song sparrow and the chipping sparrows. The song sparrow is slightly smaller and more lithe than the English sparrow, is more brownish in color and has a pretty speckled breast, with a larger spot in the center. The chipping sparrow is much smaller than his English cousin, and his breast is white, without any marks; his crown is chestnut brown.

Out in the upland fields may be found the vesper and grasshopper sparrows, and near the bushy borders of the woods and field sparrows.

Died at Humboldt.

The following account of the death of Mrs. Harold Smith of University Place is taken from the State Journal of May 3rd:

Mrs. Harold Smith of University Place, died yesterday at the home of her parents, Mr. and Mrs. Joseph Snetthen of this city, after an illness of about a year, during which time she has been steadily failing in spite of trips to the south and various health resorts in the hope of arresting the progress of the disease which had fastened itself upon her. Deceased was brought back from El Paso, Texas, four weeks ago, her case being pronounced hopeless, and immediately after arriving in this city her year-old baby died, the event no doubt hastening her own death. She leaves a husband, one of the business men of University Place, and a brother and sister, all of whom were with her to the end. The former, Frank Snetthen, is president of the First National bank of this city, and the sister is Mrs. Minnie Cravath, wife of a ranchman of Lakeside, Neb. Mrs. Smith was born at the family home, southeast of Humboldt, January 8, 1877 and resided in this section most of her life. She was united in marriage February 28, 1900, to Harold J. Smith, and they lived since at Elk Creek, Table Rock and University Place, at which towns the husband was engaged in the lumber business. Funeral services will be held Saturday at 10 o'clock from the Snetthen home, conducted by Rev. John Calvert, of the Methodist church, to which organization deceased belonged.

Mayor Barrett.

Mayor Barrett of Falls City, was in Hiawatha, Tuesday, getting pointers as regards our waterworks system. Mayor Grimes cheerfully gave him what information he could along the lines of most value to the mayor and showed him around the city and to the cemetery. Mayor Barrett expressed his astonishment at the advancement Hiawatha had made; at her miles of cement and brick walks, and in finding such a large number of large and elegant residences and no saloons either. He seemed at a loss to see how all this could be done and no saloon license money to pay for it with. "How did you get these cement walks built away out to the limits and even to the cemetery?" "Why," said Mayor Grimes, "we ordered them built; there was some kicking at first, but when the owners of the property studied over the matter, they came to the conclusion that the walks would add more to the value of their property than they cost, so they began to ask for walks." "But how about the sewers?" inquired Mayor Barrett. "Same as the walks," said Mayor Grimes. "There were kicks and law suits at first, but now we cannot build them as fast as they are petitioned for." It seems that Falls City has one endless time of it, in trying to secure an adequate supply of good water. Quick-sand benign now the foe to progress in that direction.—Hiawatha World.

Let me mail you free, to prove merit samples of my Dr. Shoop's Restorative and my Book on either Dyspepsia, The Heart, or The Kidneys. Address me, Dr. Shoop, Racine, Wis. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative.
