**Making Money.**

The average salary paid Toland graduates, after four years experience, is \$1,000 per year. The minimum amounting to \$40,000 in a lifetime of forty years. The average day laborer gets \$1.50 per day 300 days in the year, or \$450 per year. He earns \$18,000 in a lifetime. Making the difference between the average earning of a Toland graduate and a day laborer \$22,000. The difference between the earnings of a Toland graduate and a mechanic, or the average school teacher, is about the same, as both teachers and mechanics are idle a large portion of their time. Is not \$22,000 a pretty good profit on an investment of \$60,—the amount required to pay for a course in a Toland school? Many Toland graduates are now earning from \$2,000 to \$6,000 per annum. If interested send for proof. Address Nebraska Business University, Nebraska City.

Makes the finest, lightest, best flavored biscuit, hot-breads, cake and pastry. Renders the food more digestible and wholesome.
