Weeds! Weeds!

It is now only a few days until our chautauqua begins and as this is an enterprise that every citizen should be proud of, it is our duty to put forth every effort within our power to make this occasion one of the most important events ever held in our city. This can be done by making it pleasant for our visitors during their stay with us, and in order that they may get a good impression of our city and be in a position to talk it up to their neighbors on returning home, we should have our streets and lawns looking their best on this occasion. This can only be done by a united effort of all the people. Now lets get busy and cut the weeds and clean up around and about our homes and I assure you it will be greatly appreciated by this administration.

G. M. BARRETT, Mayor.

If you want to take a vacation that sure enough vacates go to Sycamore Springs and drink plenty of the water.

The Hiawatha World urges its subscribers to be neighborly and attend our chautauqua. This is the right spirit.

Every man must settle the bond question on his own responsibility, but to settle it right means a great deal to this city.

Have you ordered your tent for chautauqua? A weeks outing will do you a world of good. Live in the open air twenty four hours a day for a week and see what it does for you.

Before another issue of this paper the fate of the bonds will be known. If you desire your town to progress vote for its progress. To defeat these bonds is to seal the fate of Falls City.

After we vote the bonds for park and make it the beautiful place it is destined to be, why not name it Valleyview Park? The stretch of green valley from the summit of the park hill is one of the prettiest bits of scenery in the coun ry.

The Tribune management is seriously considering increasing its subscription price to a dollar and a half a year. Every thing we buy from white paper to labor has increased from fifty to one hundred per cent and we are almost forced to increase the subscription price. This announcement is not official but do not be surprised if in the near future we raise the "ante."

Falls City seems to be in for another town row. The debatable question is "whose administration is the better." A writer in last week's News suggests the appointment of a committee to settle it. Why not have a special election to settle such an important controversy? It isn't a question as to how you voted on the bond question last year—how are you going to vote now?

The water and light bonds mean labor for every Falls City workingman. It means fire protection and sufficient lights. It means encouragement to the men who are working for the city's improvement. It means a city united in a desire for better things. To defeat them means a general abandonment of effort and many discouraged citizens asking the question, "oh, what's the use."

FALLS CITY STATE BANK

Capital and Surplus \$65,000.00.

Annoucement.

I hereby announce myself as a candidate for the nomination for county assessor of this county, subject to the action of the Republican Primary.

H. A. PECK.

The last two administrations have called the deplorable condition of our water plant to the attention of the public. Mr. Leyda in public print and from the rostrum was the first to urge action. What he then stated would not be strong enough to describe the present condition of the plant. Mayor Barrett has been and is doing all in his power to bring the true situation to the attention of the public. The duty of the voters is clear. Do your duty.

Died.

DUCAN  
1873-1907.

Mrs. F. E. Duncan died at her home in Barada July 9th 1907 aged 34 years 1 month and 20 days. She was born in Holt county Mo. May 19th 1873 and has lived at Barada several years. She leaves of her immediate family her husband and six children, and many other relatives to whom many friends extend sympathy through the Tribune. The funeral was held in Rulo July 10th and she was laid at rest in the Rulo cemetery.

Revivals Closed.

The Oliver meetings at the tabernacle closed Monday night after a three weeks session.

The meetings have been very successful and those having the work in charge feel highly gratified at the results. There has been fully three hundred converts and we feel safe in saying that is a low estimate.

Rev. Olliver and his wife have gone to Colorado for a vacation and will return to Nebraska City later where Rev. Olliver will conduct the chautauqua.

The other visitors who were assisting during the meetings have returned to their homes for the summer.

Chautauqua Notice.

There will be no charge at the gate for the admission of teams and the chautauqua association is putting up a generous lot of hitching posts for the accommodation of those who may desire to use them. A mistake was made in the chautauqua programs in quoting the rate for children from 7 to 13 years; the season ticket is only \$1 instead of \$1.25.

Notice

A welcome to those who desire to enter the church,—also any person who may desire to give his heart to God should do so next Sunday. At 7:30 p. m., the subject of the sermon will be "Hell, its nature and duration."

All are invited to attend these services.

W. T. CLINE.

One of several this week.

When the butcher's boy of the City Meat Market was greasing his wagon Monday morning he took the cupling pin out of the doubletrees and a movement of the team let the doubletrees down on their heels and away they went. They tore down the alley between Stone and Harlin streets to the Catholic Church where they turned east and north for three blocks when they turned west and in the side street west of John Martin's they ran into a post and both horses were thrown. Both horses were pretty badly bruised up but no serious damage done and it is thought they will be alright in a few days. The harness was torn to pieces.

The Park Co. purchased the lumber in the tabernacle used for the Oliver meetings, and are now building a permanent pavilion on the park grounds. The building will be 90 feet by 120 feet with a first class rubberoid roof and substantial in every particular. The floor will have a pitch of two and one-half feet from the entrance to the platform. The side walls are to be a continuous lot of doors, hinged above, 6 feet high and can be raised so as to form an awning on the sides—thus providing splendid ventilation and in case of a storm may be closed and make the pavillion storm proof. The comfortable canvas folding benches used during the Oliver meetings are now used instead of the usual rough "backless" seats.

A pair of traveling bicycle riders made their appearance on the streets Wednesday and proceeded to give exhibitions but the rain stopped them and on Thursday they were out in tull force. They were not particularly clever though they managed to get a good sized crowd. The financial receipts were not the best after two collections were taken so they hit the high places for a town where the people are more easily worked.

All those present report a royal good time.

It was with general regret that the guests departed and each wishes for an early return to this city of Miss miller.

A Double Smash up.

While Willis Yoder was un hitching his team Monday one of the young horses became frightened and started to run. Its course took it past Wm. Ruegge's implement store where Jim DeWald was loading pumps to start for Barada. When the Yoder horse passed Dewald's team started and on reaching Stone street ran south to the Christian church where they turned and were frightened into the hitching rack just before they reached an old gentleman who was watering his horse at the city trough and could not possibly have gotten out of their way. The wagon was torn from the running gears in the collision with the rack and the streets were pretty well littered with pump fixtures. The horses got off with nothing more than a bad scare.

The Yoder horse was stopped on Stone street near the Nation Hotel.

Injured in Runaway.

Ed Voegel, a young man near Fargo, was driving a team of colts on the Fourth and not far from his home they became frightened and ran away. They ran into a mail box post in such a way as to throw the young man against it tearing his knee cap entirely loose. About two years ago he had all the muscles and flesh of the same leg shot away and was bedfast for almost a year and a half. It has only been the last few months that he has been able to get around much and the accident of the Fourth will cripple him indefinitely if not permanently.
