**Whitaker Bros. Land Excursion
Tuesday, Sept. 3, 1907**

We can sell you good rich irrigated land cheaper than you can buy it elsewhere. Think of it, \$35 per acre for land with an inexhaustible supply of water, where one crop will pay for the land, where you can grow five large crops of alfalfa a year. This is a fine climate with a good annual rainfall, makes it pleasant to travel over the country, but if you buy in Mexico or other arid countries, the entire country will be hot, dry and dusty except where it is watered, but not so at Garden City. The one great danger of buying irrigated land is the supply of water. At Garden City, the Arkansas river furnishes ample supply, but we have an emergency lake 7 1/2 miles long, 2 1/2 miles wide and 40 feet deep furnishing an inexhaustible supply. We can sell you good wheat land here at from \$10 to \$15 per acre and one crop will pay for the land. If you wish to know anything about this land and country, see G. W. Holland and Fred Bahr as they own land there. Mr. Bahr has made over \$30,000 on land in Finney county, of which Garden City is the county seat. Call and see us, or call us over phone No. 168 at our expense and arrange to go with us on Sept. 3.
