LAND EXCURSION

TUESDAY, SEPTEMBER 3, 1907

Do not fail to go with us on this excursion to Morris County, Kansas, where land is noted for the great production of corn, cattle and hogs. We spend hundreds of dollars for railroad fare and other expenses looking up good reliable agricultural lands for our customers as we will not talk and try to influence our friends and customers to buy land that we would not be willing to buy ourselves. We say without fear of successful contradiction that we have better land, that will produce more corn and other products per acre, for the smallest amount of money of any land agents in this or adjoining counties. We can sell you good farms pretty well and well improved in Morris County from \$20 to \$50 per acre that will produce from 40 to 50 bushels of corn. Good neighbors, fine roads and bridges, telephone and rural delivery, and as fine water as there is in Richardson County. If you doubt this statement, write or call and see the following parties to whom we have sold land in Morris County: J. J. Schrader, one of the best judges of land in Richardson County, of Verdon, Neb., to whom we sold 600 acres at \$28 per acre; J. A. Dietrich of Dawson, to whom we sold 160 acres at \$25 per acre; Wilber Henderson of Verdon, a nice farm of 120 acres at \$3,600; R. E. Rockwell, Humboldt, a 180 acres at \$4,200; Geo. W. Johnson, of Falls City, 240 acres at \$8,250. All of these farms are pretty well improved except three quarters sold to J. Schrader. Come and go with us on this excursion, as the round trip will cost you but \$9.00, and we will show you a solid mass of fine farms covered with good corn, large houses and barns as far as you can see. Now if you haven't but a \$1,000 or \$1,500 we can fit you out with a good farm with this small amount down. Do not hesitate as land is rapidly advancing in price. Call us at once over phone 168, at our expense, so we can arrange for your tickets.
