

About Blake Bridge

The Falls City Journal in continuing its policy of trying to force the business interests of this city to purchase what remains of its so called newspaper, has again attacked the Gilligan company by making false charges concerning the profit made on what is known as the Blake bridge.

Every business institution is entitled to a profit on its business. Every institution that continues in business does not make a profit on its business. The Gilligan company is no exception to this rule. If at the end of the year Mr. Lyford, Sam Wahl, George Cleveland, Chas. Hargrave or any other local concern makes a profit on the years work we see no good reason why they should be compelled to show the cost mark on every piece of goods sold. However, the attempt of the Journal to follow its rule or ruin policy with the Gilligan company, and the false charges the paper continually makes against the company makes it necessary to show up the Blake bridge in its true light.

The following material was put in the Blake bridge at the prices quoted. Mr. Graham said over the phone that he charged the same price on fir that is charged in this itemized account.

The Journal says that Graham made a price of \$80.00 on this bill. We are authorized by the Gilligan company to state that they will buy all the lumber that Graham or any other lumberman in the county will furnish at the price named in the Journal, and that in so doing the company will make far more money than it can possibly make in the bridge business. This bill has been submitted to other lumber dealers in the county and each one says the price charged is reasonable. More than that, there are now on file with the county clerk seven bills of three Richardson county lumberman living outside of Falls City and the same price is charged as was charged by the Gilligan company.

In addition to the lumber in this bill the company furnished all tools and labor and received \$177. for the work and material. According to the Journal's own figures the company made but 15 per cent profit on the work, out of which it must pay all office expenses such as rent, book keeping, labor, stationery and many other details known by business men.

If you have any doubt as to the justness of this charge please go to your local lumberman and ask him whether or not the price is reasonable and whether or not he will furnish the bill for \$80.

Little Boy Hurt

On Wednesday, while Harold, the five year old son of Mr. and Mrs. A. C. Chambers, the restaurant keeper, was playing near the corner of the Hetzel building, he had a narrow escape from a fatal injury.

A team of horses attached to a dray wagon was hitched to a telephone pole at the corner of the building. The little fellow began to playfully pat one of the horses and as it did not seem to pay much attention to him he boldly walked up to it and put his hand out confidently to pat it at close range when the horse in question made a vicious snap at the little fellows head. The animal sank its teeth into the skin over the forehead, close to the left temple, and bit with force. The boy jerked his head back with frightened instinct to save himself, and it was well that he did so for it startled the horse into letting go its hold, otherwise the animal might have fractured the frontal bone of the skull. The boy suffered an ugly and painful gash. He was taken to the office of Dr. Taylor where his wound was dressed and it required several stitches to close it.—Nemaha Republican.

This is the first campaign in Nebraska in which political bosses cut no figure. The people will nominate the candidates and afterwards elect them. You are one of the people and should take an active interest in these primaries and elections hereafter. Politics from now on means a square deal for the masses; lower passenger rates, lower freight rates, less extortion by trusts and combinations. These things can only be accomplished by every honest voter making it a part of his business. The people can only know what is really going on by reading the newspapers. But you ought to read a newspaper that can print the truth about all the candidates; a paper that has no self-interest in politics; whose owners are not office-holders or office-seekers. The publishers think the State Journal is such a paper and in order to prove it to you make the special offer of only 50 cents from now until after election; seventy-five cents if you want the Sunday also. The earlier you send in your order the more you get for your money. Lincoln is the news center.

It is claimed indigestion is the National disease. That's why the demand for Rings Dyspepsia Tablets keeps increasing because they do the work. Word was received in this city of a disastrous fire in Columbus Ohio in which the Hotel where Miss Anna Thomas boarded was totally destroyed and all Miss Thomas possessions lost. Among the things burned were her keepsakes and gifts that were very dear from long associations and money cannot replace them.

When Stars go Out.

A young girl once asked a bishop if he thought it was wicked for a girl to use a "swear-word" beginning with d—. The bishop replied by asking her if she didn't think it was vulgar to do so.

Leaving wickedness out of the question, the idea of a young girl—a pretty, dainty girl—being vulgar is most abhorrent to any rightminded person. Many girls use slang, and think it is smart. I do not believe that many are profane. But slang from the lips of a young girl is, to say the least, unbecoming; and, my dear, do not believe for a moment that your boy acquaintances think it is witty for you to use slang: they do not. Behind your back they criticize you for it, and to your face they treat you with less respect than you would otherwise command.

A high-school teacher recently talked to her class of girls on "Ideals," says The Youth's Companion. Here is a part of what she said, every line of which you should read, and read again, and take seriously to heart.

"It is hard for you girls to realize the subtle influence you have on boys of your own age, and younger. They idealize you; they depend on you to be innocent, pure, good. You may shrug your shoulders and say you don't care what this or that boy thinks of you, but you ought to care—and deeply—every time an ignoble act or careless word of your robs any boy of an ideal which might have lighted him through dark places in his life but for you. He may seem to forget about it; he may act the same to you, but oh, how little forgiveness counts when a star goes out!"

"Girls, are you making stars go out?—The Circle.

Mothers with little children need a longer fear croup, colds or whooping cough. Bees Laxative Cough Syrup tastes good. It works off the cold through the bowels, cuts the phlegm, clears the head. For young and old. Guaranteed. Secure a bottle at once. Sold by A. G. Wanner, druggist.

Love is called the greatest force in the world, but there could be no love without human hearts. Even God's love is meaningless and powerless in the world aside from its working in and through human hearts. You have this power, this mighty force at your command. As Mrs. L. M. Child express it years ago. "The cure for all the ills and wrongs, the cares, the sorrows, and the crimes of humanity, all lie in that one word love: it is the divine vitality that everywhere produces and restores life; to each and every one of us it gives the power of working miracles if we will."—Heartcry.

Tallest Building in the World

Piercing the sky-line of New York far above all the other skyscrapers of the downtown district, the lofty Singer building, fast nearing completion, already exceeds in height the Washington monument, whose solid shaft of granite rises 555 feet above the ground.

A few more stories remain to be built and when the towering pile of steel and masonry is finished it will be 17 stories high and 612 feet from the sidewalk on Broadway to the pinnacle. This giant skyscraper will be the highest occupied building in the world and will overstep all other existing structures except the Eiffel tower in Paris. When completed a time ball will drop every hour from a pole on top of the building and at night the falling hour globe will be illuminated by three lights, which will play upon it constantly.

The foundation of this colossal building is set in solid bedrock 90 feet below the level of the sidewalk. On the bedrock were built caissons of cement. A heavy steel body laid over the caissons forms the underbody of the structure, 14 floors of which comprise the main section of the building, from which rises the tower up to 47 stories, with its scores of office rooms. The engineers say the total weight of steel and masonry in the tower is 18,365 tons, while nearly 10,000 tons of steel have been used in the framework. Eighteen elevators will carry the 2,500 tenants to their offices.

Fifteen thousand incandescent lights, sufficient, the engineers say, to light a town of 25,000 inhabitants, will illuminate the rooms and hallways for late office workers. Fifteen miles of pipe will be required for steam and water purposes. An immense copper lantern will form the pinnacle of the building, from which at night a powerful searchlight will flash forth, furnishing a beacon to mariners, and will be visible more than 60 miles at sea.

The fact that Roscoe Anderson failed to secure the nomination for judge of Richardson county at the primary last week is very much regretted by a number of his Tecumseh friends—not so much at Roscoe's defeat, but Claude Linn and Jim Davis of Humboldt had promised that if Mr. Anderson was nominated they would arrange a big banquet for himself and friends—some of whom were to be invited from Tecumseh—and the menu was to consist of Rocky Mountain oysters fried, stewed or raw. It is a great disappointment and Mr. Anderson should have made a more determined effort when he knew what was at stake.—Tecumseh Tribune.
