District No. 1—John Hinton  
District No. 4—George Smith  
District No. 2—Ed. Graham

Court week after next. The Miles will case will not come up.

There are some questions asked Bill McCray on another page which he can answer in this paper if he desires.

Bill McCray says he didn't do it. Hinton, Santo, Zoellers and Bauer say he did. Bill is a candidate for office, the others are disinterested witnesses, whom will you believe?

A large amount of bridge claims were allowed at the meeting of the supervisors. These claims are for bridges washed out and damaged by the disastrous storm several months ago.

The record of the testimony in the Miles will case was received here this week and is big enough to make a good library. The words have been counted and no estimating was done by Jack O'Keefe the reporter who made it.

### Often overlooked

The public schools too often overlook the practical side of the boy's or the girl's education. It therefore becomes our pleasant duty to assist the boys and girls in getting a knowledge of those things which must shortly concern their financial welfare. Our great effort is to encourage them to save money. Send them to us and we will do our utmost to get them started right.

### FALLS CITY STATE BANK

The harvest is over, the summer is ended. Now for foot ball, sausage and buckwheat cakes.

Mr. Coons, the republican candidate for county superintendent was a pleasant caller in Falls City this week. He has been with us several times before but owing to the absence of the editor the fact was not known. It was Abraham Lincoln who said years ago, "Give the boys a chance." Advice so good that the people have been following it ever since. Mr. Coons is one of the brightest young educators in the state. He has attended school in the Fremont and Peru Normals and at the State University. His marks were of the highest in each place. But better than those he has shown practical ability as a teacher and carries with him the strongest recommendations from several high schools over which he has presided.

The Missouri Pacific announces a rate of \$2.05 to Kansas City, also a flat 2c rate to all intermediate points.

#### Ellington Preliminary.

The preliminary examination of Clyde Ellington was held before Judge Gagnon in the district court room last Saturday before a large crowd. The testimony developed that Ellington and Wilson had had trouble before and that Wilson had whipped Ellington the night before the killing. There were no eye witnesses to the shooting though a colored boy by the name of Frank Enos was with Wilson a few seconds before the shot was fired. No testimony was offered for the defense and the court bound the defendant over for murder in the first degree. It is understood that the defense will be self defense when the trial is had which may be at the next term of court.

A good many of our people have been straining their necks looking for balloons lately.

When one of the American balloons in the contest at St. Louis went up the occupants of the car were singing. "I don't know where I'm going, but I'm on my way."

### Chain Ornaments
