

Smoking His One Fault.

Robert C. Lucas, seventy-one years old, resigned his position in the office of the American Express Company here last night, ending forty five years of service for the company, in which time he never has missed a day's pay.

For seventy years Mr. Lucas had no need of the attention of a physician. Less than a year ago he felt a decline in health and began treatment. His throat has become affected by smoking. Overwork also is credited for his general falling off in health.

Mr. Lucas began work for the American Express Company as an express messenger.

He gives the following advice to those who would emulate his example:

"Good health is as great a requisite of a good worker as brains. I have observed the men who got highest, are those who were not complainers and who did not watch the clock too closely.

"Young man, do not smoke to excess. If I had dropped smoking when I could, my bank account would be \$5,000 larger.

"Pass up the drinks, I've seen booze put more men out of jobs than hard times.

"A man should have eight hours sleep out of every twenty-four. That does not mean four one night and twelve the next.

"Consult your wife and follow her advice. If she tells you to wrap up your throat in a red flannel rag soaked in kerosene, do it."

"I trust this may be read by many sufferers from kidney and bladder trouble," writes Mrs. Joe King of Woodland, Texas. "I suffered four years and could find nothing to give even temporary relief. Our druggist at last induced me to try your 30 days' treatment of Pineules for \$1. This one bottle has cured me and money could not buy the value it has been to me. Guaranteed. Sold by A. G. Wanner, druggist."

In the lobby of a Washington hotel Mr. Bryan and Senator Daniels met. "Good morning," said Mr. Bryan. "Good morning," said Senator Daniels. And the conversation went merrily on until a slight disagreement arose. Then Mr. Bryan said he thought when such things were said it was time to end the conversation, and Mr. Daniels agreed with him. It seems to have been simply a disagreement between gentlemen, who knew when and how to terminate it. No doubt they were both a little flushed and they may have spoken a little short but there is nothing in the conversation to indicate that either had any hostile intention. But there were some little cheap fellows standing by who wished to make themselves conspicuous and perhaps to make the appearance of doing a service for the great men whose words would doubtless get into the newspapers. These bystanders gathered hurriedly around the principals and officiously hurried them away as though there were danger of a physical encounter and fear that one or both of them might suffer bodily harm. Their officious interference was superfluous and made a slight disagreement between friends appear like a challenge between bullies. Mr. Bryan and Senator Daniels know how to meet, how to disagree and how to part without any cheap officiousness and without disgracing themselves.—Ex.

Made \$900 From Eight Acres.

Cyrus Milan has the record in this vicinity for raising vegetables. During the past summer, with one horse and a delivery wagon he planted, cultivated and marketed the product of eight acres of land, which brought him in money \$900. This means that he reaped from these eight acres of land \$112.50 per acre in one summer.—Auburn Herald.

At the end of this season America will send at least \$6,000,000 to Europe as a token of her appreciation of musical art. The estimate is conservative and probably too low. The opera companies—the Metropolitan and Manhattan—are composed chiefly of foreigners who will go to Europe next spring with \$1,250,000 in their pockets. The concert singers pianists and violinists, excluding Paderewski and Kubelik, will carry away another \$200,000. The royalties paid to foreigners for operas and sheet music by Americans in Europe mean \$500,000 more. The \$6,000,000 tribute to musical art, too, is quite independent of the hundreds of thousands of dollars paid by Americans for musical comedies and "popular" songs of foreign origin.—Ex.

Panic Hints to Ordinary Men.

Money that can be spared from immediate wants should be put in the banks as usual. It is not likely that those who have debts to pay and bank credits will suffer for means to discharge their obligations. The most harmful course that could be pursued is to keep out of circulation the money that has been usually deposited. This proceeding is decidedly opposed to self-interest. It adds a new difficulty to see the case. Take short views. Consider the requirements of the day and the week, and not those for long periods ahead. Keep on the even tenor of the way, with a levelheaded faith in clear skies when a storm blows over, and there never yet was one that failed to blow itself out in a comparatively short time.—Hiawatha World.

The time and place has been decided upon for the republican national convention. It will be held in Chicago, June 16. Kansas City made a hard struggle for the big show, but the windy city delegates were too much for them. The Kansas City people will now turn their efforts toward securing the democratic national convention. Work has already been started on remodeling the big convention hall in Chicago, getting ready for the large crowd expected.

The finest Coffee Substitute ever made, has recently been produced by Dr. Shoop of Racine, Wis. You don't have to boil it twenty or thirty minutes. "Made in a minute," says the doctor. "Health Coffee" is really the closest coffee imitation ever yet produced. Not a grain of real coffee in it either. Health Coffee Imitation is made from pure toasted cereals or grains, with malt, nuts, etc. Really it would fool an expert—were he to unknowingly drink it for coffee. Fred E. Schmitt.
