Do you write it 1908?

Oklahoma is in line for Taft.

1908 is the young lady's opportunity. Young men be modest.

The Thaw trial is again upon us. Look out for another expose of New York aristocracy.

This is not very satisfactory weather for the ice man and coal man. The rest of us need not chide the weather.

The strongest reason in favor of nominating W. J. Bryan for president on the democratic ticket is the fact that he can not be elected.

Have you heard any one speaking of spending the winter in California? We have California weather at home. Hurrah for Nebraska.

Our friends have a man party. Mr. Bryan is to be the nominee, but there must be a convention that they may hear him say, "I thank you."

Mr. Brynn will abandon the lecture platform until after the presidential campaign, after which he will have ample time to accept all invitations for rostrum stunts.

The republican State Committee in Session Wednesday decided to hold the state Convention in Omaha. The Convention is to name four delegates at large to the national Convention.

Fremont is the first town in the state to come to the front with a Taft club, one now being organized there with a large membership. In fact, among the republicans in Fremont there seems to be a unanimity of sentiment in favor of Taft.

There are more than 400 convicts in the state penitentiary. What is wrong with modern society that compels men to shut their neighbors within stone walls and iron cages lest they do harm? Look about you and see if you can discover the evil.

Mr. Bryan seems to devote considerable of his time of late, pointing out what he fears Mr. Taft may do if nominated for president. We might add another great objection for Mr. Bryan's benefit and that is, Mr. Taft will be elected if nominated.

At last Mr. Cleveland has declared in favor of a pension. Not for the old soldier, however, but for ex-presidents. We have but one ex-President. How nice it is when we are the recipient of a favor how wrong when we are not.

An order has been issued prohibiting the admission of women to Harry Thaw's second trial. We have Justice Dowling, who will set in the case to thank for this ruling. Now if we could manage to keep the reports of the trial out of the newspapers we would have much indeed to be thankful for.

It is said 27,000 women in New York support their husbands and, being the wage earners, someone wants to know why these women should not be permitted to vote? Now, perhaps, not one woman out of every hundred knows anything about political affairs, and does not care the least for such, but it would be a fair deal if these non-supporting men were not permitted to vote. That would be a better arrangement. If a man can't provide for his own household, he is a poor piece of material to help support the government.—Woman's National Daily.

Senator Burkett has introduced a grazing bill, which we give to our readers in another column. A bill intended to promote homestead entry and to protect the homesteader and small cattlemen. It is a conceded fact that the government land is not being utilized for the best interests of the federal government, or the state, or the people of the communities, and instead of being a source of income to the state are an expense. The bill is one of merit and it is hoped will be passed and thus be instrumental in settling the controversy over public lands that has waged so long.
