At a recent meeting of the Chautauqua managers it was decided to contribute space to the W. C. T. U. and different clubs of this city for tents to be used as their headquarters during the coming assembly. In return the managers ask the hearty co-operation of the ladies in making the chautauqua a success, and in beautifying the grounds, which they no doubt will do.

Little things are not to be ignored because they are trifling. The nerve of a tooth will make the very best people give way to the strongest language. Grains of sand, tiny though they be, compose this great and grand earth of ours. It is the saving of pennies that makes you rich. Little things in youth accumulate into character in old age, and form your eternal destiny. It is the close observation of little things that is the secret of success in all the pursuits of life. Knowledge is only the accumulation of small facts.

WAS THROUGH WITH RUM.

When Stuff Steals Away Man's Senses It Was Time to Quit.

"I'm through with the drink thing forever," remarked the smooth-faced man with the little nub of a cigar in that same tone that the hero uses down at the Cleveland theater when he says: "Yes, I'm goin' away from hyah forever!" The smooth-faced man was just that positive about it.

"None," he said, as he brushed the ashes off his coat lapel, "the rum proposition leads only to mortification, and ruin. When a man gets so he pushes the bottom and don't know it—when it comes to a situation like that, it's time—"

"Walt!" broke in the little chap with the flat-top soft hat. "Just pause and slip back up the track about a car length! When you tell anything kindly begin at the table of contents; then go to chapter one, and so on, will yuh? You talk like a busted down phonograph."

"As I was about to say," went on the man with the nub of a cigar, just as if no one had stopped him, "when we got through settling the street railway question and a few other matters of moment that had to be disposed of before the bunch broke away last night, it was lacking just a few minutes of being 2:30 o'clock. When I got home I says to myself: 'Why wake up little wifey when she needs the sleep?'"

"Acting on that suggestion, I took off my shoes just before I started to climb up the steps to our front porch, wondering to myself all the time how much of a discount I'd be able to deduct from the time I came home when I spoke of it at the breakfast table next morning."

"I walked up to the door just as quietly as a cat—and then rang the doorbell. Yep, I just pressed the dinky little electric button, and then I came to. I had my key in my pocket all the time! It wasn't more'n a minute till my wife opened the door and saw me standing there, shoes in hand."

"Without going into any more details, is it any wonder I'm sore on the stuff that steals away men's senses?"—Cleveland Plain Dealer.
