The Suicide.

Walt Mason in the Emporia Gazette. I was tired of all my toiling in this weary world of moan; tired of seeing others harvest in the fields where I had sown; tired of seeing others journey daily in their palace cars, while I stumbled weakly, blindly, underneath the winter stars. So I said: "I'll end the striving; death is still the tired man's hope;" and I tried to die by hanging with a piece of Searsbuck rope, but the blamed thing ripped and parted, and I fell a half a mile, so I said: "I'll take a shotgun and vamoose the ranch in style." Then I took my Sawbuck shotgun, and I aimed it at my brow, but it busted when I fired it, and it killed a neighbor's cow, and that neighbor hired a lawyer, and he sued me yesterday, for about a million dollars—more than I can ever pay. I have used a buck pair of shears; I have used a wooden razor that was guaranteed by Sears; and the large mail order coffin that

I ordered in advance, to contain my mortal fragments ne'er, it seems, will have a chance.

That languid, lifeless feeling that comes with spring and early summer, can be quickly changed to a feeling of buoyancy and energy by the judicious use of Dr. Shoop's Restorative.

The Restorative is a genuine tonic to tired, run-down nerves, and but a few doses is needed to satisfy the user that Dr. Shoop's Restorative is actually reaching that tired spot. The indoor life of winter nearly always leads to sluggish bowels, and to sluggish circulation in general. The customary lack of exercise and out-door air ties up the liver, stagnates the kidneys, and oft-times weakens the heart's action. Use Dr. Shoop's Restorative a few weeks and all will be changed. A few days test will tell you that you are using the right remedy. You will easily and surely note the change from today. Sold by all dealers.

The Tribune's columns is a good place to put your advertisement.

Campbell's Stain and Floor Finish is the most durable finish for floors and surfaces that are walked upon. Made transparent and in colors imitating natural woods. Morsman Drug Co. upon request will show a sample of old flooring coated with this finish. It wears longer than regular floor varnish.

Market Letter.

Kansas City Stock Yards,
March 30, 1908.

Cattle receipts last week were 41,000 head, an increase of 10,000 head over the supply previous week, but demand was keen, and sellers again had all the advantage. Allowing for a reaction of 10 to 25 cents after Wednesday, which was the high day last week, steers made a net advance of 30 to 40 cents, cows held about steady, heifers shade lower for the week, stockers and feeders 10 to 25 cents lower. The run is 16,000 here today, and fairly liberal elsewhere, and the market is 10 to 15 lower than close of last week. The advance in price of meat to retailers last week, inaugurated by the packers, will have a tendency to curtail consumption, which together, with the strong desire of many feeders to liquidate while prices are high, and before the active opening of spring work on the farms, will likely bring a lower level of prices for a week or so, but the impression prevails that prices will average high for the next two months or more, and cattle continue to look like money in the bank. A top of \$7.15 was paid for a full load last week, odd head at \$7.25, and numerous lots at \$7.00. Top price today is \$6.90, other good sales at \$6.75 and \$6.85, bulk of steers \$6.00 to \$6.60, top heifers \$6.35, bulk \$4.25 to \$6.00, cows \$3.25 to \$5.50, bulls \$3.50 to \$5.25, calves \$4.00 to \$6.00, feeders \$4.75 to \$5.75, stockers \$3.75 to \$5.50. Cattle receipts will show a shortage for the month, as compared with March last year, less than 5 per cent.

Hog receipts fell off 6,000 head last week, from previous week, and prices jumped up rapidly, finally settling 75 to 80 cents above the close of the week before. Run is 9,000 head today, market 5 higher, closing at the best point of the day, top \$5.90, bulk \$5.65 to \$5.85, light hogs \$5.50 to \$5.70, pigs generally in without sorting. March receipts will aggregate 290,000 head, greatest number ever received at Kansas City during that month. Dealers are at sea as to the future prospects, except that lighter receipts are almost a certainty. Trend of prices will depend on whether or not the rise in prices cuts down consumption appreciably.

A hot market prevailed in the sheep yards all of last week, prices showing a net advance of 20 to 30 cents on all kinds. Supply was 32,000 head, about the same as previous week, but 6,000 head short of same week last year. Run is 8,000 today, market strong and sales at the top notch of the season, lambs \$8.00, ewes \$6.50, yearlings worth \$7.40, wethers of the season, lambs \$8.00, ewes \$6.50, yearlings worth \$7.40, wethers \$6.80, bulk of sales 5 to 30 cents under these top prices, and clipped stock, which has not yet started freely, 40 to 75 cents less than woolled offerings.

The Office Cost Too Much.

On Wednesday morning of this week the county commissioners stopped the pay of Deputy Sheriff B. J. Henderson.

The retirement of the deputy came in the shape of an order that was issued by the county board and was a rather unpleasant surprise to him.

During the past year there has been but very little work connected with the sheriff's office, and Sheriff Rohrs, under the new law, is drawing a salary of \$1,500 per year. The county commissioners have figured that a man drawing that much salary should perform the routine duties of that office with such help from bailiffs in times of court as the commissioners would allow and they certainly have been liberal in that regard with all sheriffs that have filled the office.

It is contended by those who are in a position to know that the sheriff's office has been costing the county, in excess of fees that have been paid in, at least \$1,200 a year, and it is in an effort to save this that the commissioners have taken the action they did.

The new law gives to the commissioners discretionary power in the matter of the employment of deputies and the action of the county board is legal, although it is intimated that Mr. Henderson has hinted that he will hang on despite their action.

It is said that in the past the board has had trouble in adjusting the expense accounts that have been turned in by Mr. Henderson and that in some instances they have seen fit to scale them down.—Nemaha County Republican.

Illinois Man Takes up the Work.

A meeting of the stockholders in the Peru Drainage ditch project, was held at Peru, Saturday.

An advertisement had been published for bids on the work, the stockholders having come to the conclusion that the Gilligan company would be unable to complete the work.

There was only one bidder present. A Mr. Martin, who comes from Illinois and who has a similar project to the one of straightening the Nemaha, in the vicinity of Maitland, Mo.

He was informed that if he could come to any agreement with the Gilligan company, in taking over their machinery or contract that the board would stand by the action.

The stockholders have been unfortunate in their dealings with the surety company which guaranteed the Gilligan company bond, the surety company claiming that the drainage people have slept on their rights and that the bond company cannot be held for the performance and completion of the Gilligan contract. It is said that the latter corporation is about ready to quit the job.

The stockholders will not lose anything by this procedure although they will suffer damage by the delay.—Nemaha County Republican.

A Common Mistake.

Many women mistake kidney and bladder troubles for some irregularity peculiar to the sex. Foley's Kidney Remedy corrects irregularities and makes women well. Miss Carrie Hardon, Bowling Green, Ky., writes: "I suffered much pain from kidney and bladder troubles until I started to use Foley's Kidney Remedy. The first bottle gave me great relief, and after taking the second bottle I was entirely well." Kerr's Pharmacy.

Division Of Profits

This bank has been highly favored. Its earnings have been satisfactory to the stockholder; the depositor has also had a fair division of the profits, and otherwise enjoyed the prosperity of the bank. All of which goes to show that the interests of the bank and the people are identical; and that the two are so closely interwoven that they cannot be separated.
