The bare foot boy is again in evidence. There are no happier days than these for boyhood.

Humboldt and vicinity can boast of eighteen automobiles. What has become of Falls City's horseless carriages?

Judge Alton B. Parker is to lead the New York delegation to Denver. He will be in a position to return to Mr. Bryan the bouquet handed him at St. Louis in 1904 by the great democratic dictator.

It seems strange that men will not take the President at his word when he says that he is not a candidate and will not be a candidate for president this year. It seems like an insult to keep urging him for the nomination, after he has spoken in such uncertain tones on several occasions. He is certainly entitled to have his wishes respected.

The report now comes from New Jersey that the "Merry Widow" sailors are discouraging men from attending church. The story goes that a pew that formerly seated six ladies comfortably now will seat only four. It is discouraging to a man unless he is more interested in fine hats than in sermons to sit behind a square yard of hat and dote on hats and hats alone.

This is the season for the building of new side-walks. Many new ones are being constructed and it will not be many years until there will be no board or plank side-walks to be seen in the town. There are quite a number which are badly in need of repair and it is hoped that they will be repaired so as to be safe or new one constructed in their place. It may save the City quite a little annoyance in the way of injured limbs caused by defective walks.

The Omaha Bee thinks that the story which comes from New York that a woman was robbed of \$200 in that city after purchasing an Easter bonnet is a fairy story. It concludes by saying that is too much money for any woman to have after buying an Easter hat. Possibly the hat was not paid for, but was charged to the husband. That solution would clear up the mystery.

Shortly after Mr. Bryan's "first battle" he consoled himself by thinking that if he had only gotten a few thousand more votes in a few of the close states he would have had votes enough to elect him president. Now a certain Populist of prominence comes forth and says that if it had not been for Bryan beguiling the Populists into voting for him, he would have received fewer votes than were cast for Mr. Parker in 1904. It is not the schoolboy only who gets satisfaction from his mathematical bumpwell developed.

The reports from the various wheat producing states that the wheat prospects are good are a source of no little satisfaction, not only to the farming community, but it is gratifying to the inhabitants of the cities as well. A large crop may not mean as high prices for wheat as a smaller crop, but this apparent disadvantage is more than made up for by the greater advantage of being able to procure it at a reasonable figure. While high prices for agricultural products are gratifying to the producer, there is such a thing as prices being too high for the consumer. We may cite as an example steak selling at from 15c. to 20c. per pound, in fact all meat in general.

It is amusing to read certain editorials of some of our democratic contemporaries headed, "Is Roosevelt retreating, etc?" They cause themselves no little trouble about the matter of his retreat; if they watch Teddy's course a little while longer they will learn that he never retreats but his orders are always "Forward!"

The supreme court of South Dakota recently held the primary law of that state to be unconstitutional, for the reason that candidates for the nomination for county offices were required to pay a fee to have their names appear upon the primary ballot for the nomination for any office. That provision is similar to one in our state primary law. It remains to be seen whether an assault will be made on Nebraska's primary law on the same grounds.

A carrier on one of the rural mail routes of this county informed the writer that he does not now take one postoffice order on his route for Sears & Roebuck where he took from a half-dozen to a dozen a year ago. This would indicate that the public are opening their eyes to the fact that the way to keep the money in Richardson county is to buy their goods from merchants in the county, and that the way to build up home industries is to patronize them.

The State bureau of statistics from the compilation of figures in that office announces that the number of mortgages filed with in the State in 1906 was 17,451, while in 1907 the number was only 16,131. This shows a reduction in the number of mortgages filed in 1907 over 1906 of 1,320. The number of mortgages filed in 1906 was \$44,003,848.79, while in 1907 the amount was \$35,322,577.99; this shows a very satisfactory state of prosperity on the part of the farmers of Nebraska.

Henry Watterson, after a trip to Cuba where he has conversed with many of the best and most capable men, has come to the conclusion that the Cubans are not ready for self-government; this is rather a frank admission from a democrat, but Mr. Watterson is in the habit of saying things which many of his party friends do not like. If Bryan spent a little more time investigating the conditions of the Philippines he might see the errors of his ways and cease some of his idle talk.

The great fire in Chelsea, a suburb of Boston, Mass., which destroyed nearly \$10,000,000 worth of property on Sunday night, is another example of how great a fire may originate in a way which may appear very insignificant. It is said to have started among a pile of rags. A close observer will see by passing through this town that there many defective flues which need repairing. Many chimneys are cracked and the mortar has fallen out between many of the bricks. It would be well for every property owner to look after the defects in his own property and avoid danger of fire from them.

Some of Mr. Bryan's friends speak of the candidacy of Governor Johnson as an act of impertinence. Why should not Mr. Johnson be a candidate for the highest office in the power of the American people to bestow if his friends desire him to be? Has he

not the same right as Mr. Bryan in the matter? Mr. Bryan is now candidate for the third time for the nomination. Why not let Mr. Johnson be a candidate for once at least? It seems hardly right for one man to monopolize the candidacy for the presidency on the democratic ticket or on any other ticket. While we have no voice in the matter it seems that the great voice of the common people should control in this matter as in other party affairs.

Bill Boyd and R. E. Grinstead were down from Salem, Tuesday.

## Annual Parish Meeting.

The annual meeting of St. Thomas church was held Monday night. The report of the treasurers of the parish and the various guilds showed the best financial record in the history of the parish.

The following gentlemen were elected wardens and vestrymen for the ensuing year:

Wardens—John Hutchings and Henry C. Lapp.

Vestrymen—T. L. Himmelreich, A. E. Gantt, R. R. Horrocks, John Crook, Doctor Miner L. C. Edwards, Doctor Morsman and R. A. Neitzel.

Messrs. Hutchings and Himmelreich were elected delegates to the annual Diocesan Council which meets in Trinity cathedral, Omaha, in May.

A vote of thanks was tendered the rector for the beautiful services on Easter and for the helpful and hopeful sermons delivered by him on that day.
