ANNOUNCEMENT

I hereby announce myself as a candidate for the office of Representative subject to the action of the republican voters at the primaries to be held Tuesday, September 1st, 1908.

E. O. ZOOK,
Humboldt, Neb.

Representative

J. Rock Williamson of Grant Precinct announces himself as a candidate for member of the legislature from Richardson county, subject to the will of the republican voters. Being a veteran and an old resident of Richardson county, which he has served in the capacity of sheriff, he trusts the citizens of the county know him well enough to pass intelligently upon the question of his candidacy.

Representative

As a candidate for the nomination for representative on the republican ticket, I deem it proper to announce my views on some of the more important matters that will come up before the next legislature.

As a republican I believe the republican party should nominate men whose views are in harmony with the majority of the republicans and then support them.

I am a Roosevelt-Taft republican and believe in a square deal to everyone. I am in favor of amending our present revenue law, so that a man's indebtedness will be deducted from his assessable property, as the present law, of taxing both property and mortgage held against said property is double taxation, pure and simple. It works a hardship on the very class of citizens that are the least able to stand it. I believe that all citizens, rich or poor, should be equal before the law.

I am in favor of amending our primary law, so as to permit the voters to elect the precinct committee man also county chairman.

I am in favor of amending our present road law and would suggest that at farmers' institutes held in various places this matter should be taken up and committees appointed to formulate plans to be presented to the next legislature, so as to assist them in passing some sensible and economical road law.

I am in favor of county option and believe that every one, whether they are opposed to or in favor of the open saloon, should favor this measure, as it would tend largely to put an end to the continual strife and turmoil that exists in almost every town in the state. Again the liquor question affects every taxpayer in the county, then why should they not have the right to say whether they should have the open saloon or not?

Now, my republican friends, I leave my candidacy in your hands and await your verdict. I am, very respectfully yours,
S. H. BOLEJACK.

"We are advertised by our loving friends." Just listen to the howl.

In a Chicago speech W. J. Bryan appealed for twenty-five cent contributions to be spent in his interest. Comment seems unnecessary.

In the thirty days speaking tour arranged for Mr. Bryan a few dates are given to the state of Georgia, many are given to Kentucky and Maryland. Does it not look as though somebody is getting a little "panicky" about the solid south?

Primary election day occurs next Tuesday, September 1st. Primary election day is the day of the people. The choice of the different candidates for the various county and state offices must be made on that day. Let every voter get out then and help nominate good men.

The man who attempts to array one class against another is an enemy to his country. The rights of every class of people should be respected and any far seeing man who has the best interest of his country and of his people at heart, will not be guilty of stirring up class hatred.

A reputable and truthful farmer told in the hearing of the writer last week, of four of his near neighbors, all formerly Bryan men, who are now outspoken for Judge Taft. The republican national ticket is as certain to carry Richardson county as the votes are cast and counted.

Since it has turned out to be a fact that the amount of state taxes which will be paid by this county for 1908 will be less than in 1907, and that the amount of county taxes levied by the democratic county board is higher than for last year, we have a right to ask for an explanation from our democratic friends. Will we get it?

The republican national committee is having hundreds of phonographic records made of Bryan's speeches in 1896 and 1900. If you remember some of the predictions he made you will readily see how ludicrous these speeches will sound. As Bixby says:

"This is the democratic way, I speak the words in sorrow— An issue paramount today Aint worthadam tomorrow."

The democratic silence regarding our state taxes is about the most eloquent silence imaginable. The charge made that Richardson county state taxes had been increased under Governor Sheldon, when in truth they are less than before, leads one to accept the statement of a local business man last week, when he said, "When you see it in the local democratic organ, it didn't happen."

Some man who is interested in the chances of the different candidates for election as president in November, has discovered that Mr. William J. Bryan was nominated on Friday; that there are thirteen letters in his name and that John Werth Kern is also unfortunate in having thirteen letters in his name. Friday and the number thirteen occurring twice in connection with these names were too much for him.

The Tribune would like to see every candidate for the legislature adopt the policy of Mr. Bolejack. This applies alike to democrats and republicans. The voters are entitled to know what services the public servants intend to perform. Mr. Bolejack courageously and frankly tells the people his position on all questions before the people and his example could well be emulated by every other candidate.

At the close of the last democratic administration, under a democratic tariff, wheat sold for 48 cents. Today it will sell for 80 cents. Corn sold for 16 cents, today it sells for 70 cents; fat cattle sold for \$3.80, today they sell for \$7.20; hogs sold for \$3, today they sell for \$6.25. Bryan's platform demands material reductions of the tariff on necessities. If you want to know what that means to you, read the above prices and learn the effect of such a tariff on the western farmer.

"Shall the people rule?" is the question upon which Mr. Bryan bases his hopes for election. In all the history of this country there is no period in which the rule of the people has been so supreme as during the Roosevelt administration. The President has made his own precedents from the settlement of the coal strike to the Standard oil prosecutions, and his efforts have always been directed in the interest of the rule of the people. In many of the things accomplished Judge Taft has been an important factor. To the policies of President Roosevelt he stands unequivocally committed. The indorsement of the labors of Theodore Roosevelt is the absorbing issue of the campaign and in their endorsement the American people will return an affirmative answer to the question propounded by Mr. Bryan.

If you dig into a democratic cemetery, you would find it filled with dead democratic "paramount issues." You would find the dead issues favoring human slavery buried there. Not but a little beyond that grave you would find the remains of free trade doctrine which is now abandoned for tariff for revenue only. Then free silver with its kindred sister of repudiation, the talk of imperialism, government ownership of railroads, the offspring of Mr. Bryan's fertile mind, would be found in graves that

are yet fresh. Bryan now tells us that the great question is, "shall the people rule." Has he forgotten the ruling of the people in 1900 when they snowed him under with his paramount issues, with a plurality against him of 800,000 votes? Certainly the people shall rule and on November 3, '08 their voice will be heard upholding Mr. Taft as the exponent of Roosevelt's principles to which he stands pledged.

THE LORD MAKE US TRULY THANKFUL

The chill of last Sunday was a reminder that the summer is dying. There will be more warm weather, of course, but in a few weeks the morning will show the hillsides glistening with frost, the apples will be red in the orchard, the dry corn stalks will creak and rattle in the early breeze, the maples will put on their glorious gowns of yellow and the quiet days of early autumn will wrap their hazy robes about all nature in preparation for the winter's rest. Soon the harvest will be ended and another year pass as the years have passed since time began.

For the splendid fields now ripening, for the plenty which out of thy abundance hath been granted us, for the rains and the sunshine and the golden days of the fleeting year, for the good we may have done and the good we have received, for the ability to appreciate and the spirit of gratitude, for old 1908 which has been and is yet to be, the Lord make us truly thankful.

A SAVING OF \$6,000,000 TO NEBRASKA.

As many of the democratic papers and spell binders are lambasting the republican state executives it will be in order to call the attention of the public to a few interesting figures.

Through republican legislation there has been saved to the people of Nebraska the sum of \$6,006,405.38, as follows:
Two cent passenger law.....\$3,168,104.60
Law reducing the freight rates..... 2,559,189.48
On grain, live stock and lumber, Sibley law, state traffic..... 179,111.30
Law reducing coal rates... 100,000.00

Total saved the people....\$6,006,405.38
These figures are not mere guesses. They are a statement of positive facts, taken from figures furnished the railroad commissioners at Lincoln by the various railroads of the state. They are open to inspection to all. These figures were not furnished by friends of the republican party, but were furnished by railroad officials in compliance with laws passed by a republican legislature. Every reduction in freight rates on corn, wheat, oats, or live stock means an advance in the prices paid the farmer for his farm products. If the freight rate on corn is reduced two cents per bushel, the grain buyer can pay the farmer two cents more per bushel for his corn. The same rule holds good on all other products. No further comment is needed on these figures as any man can understand them for himself.

Resolutions of Respect

Whereas it has pleased the Ruler of the Universe to remove by death our neighbor, James M. Whitaker, a member of Falls City Camp No. 343 M. W. A. therefore be it

Resolved by this camp that in the departure of Neighbor Whitaker we have lost a good and useful member of the order and a neighbor that inspired confidence respect and good fellowship in the camp, and the community a good citizen. Be it further Resolved that a copy of these resolutions be spread on the minutes of this Camp; published in the papers of the city; and a copy be presented to the family of our departed Neighbor.

Respectfully submitted,
O. WACHTEL,
J. M. DEWALD,
E. E. COATNEY,
Committee

For Railway Commissioner

I ask the republican voters of the state to support my candidacy for the nomination for the office of Railway Commissioner at the primaries which are to be held September 1st. Having for years been a large shipper, my experience will be of value in the adjustment of rates. My record as a republican will bear inspection.
