Stomach trouble would more quickly disappear if the idea of treating the cause rather than the effect, would come into practice. A tiny inside hidden nerve, said Dr. Shoop, governs and gives strength to the stomach. A branch also goes to the heart, and one of the kidneys. When these inside nerves fail, then the organs must falter. Dr. Shoop's Restorative is directed specifically to those falling nerves. Within 48 hours after starting the Restorative treatment patience say they realize a gain.
