On Friday of last week John Hossack started to the country to be gone all day, so he took with him a lunch. He tied the bucket which contained the lunch by the bail to the wagon. After working hard all forenoon he stopped to eat his lunch; but on reaching for the bucket he found only the bail. When he discovered his loss his appetite grew ravenous as the noon hour passed away. On his return home he found his dinner setting on a mail box near by. Mr. Hossack is grateful to the finder of the bucket, as he at once did justice to the contents.

I guess he did. It is said that his sales have been running around \$1,000 per day, which is going some in a city of less than 5,000 inhabitants.
