Senator Cain is the only republican member of the senate banking committee. We venture the assertion that the young man from Richardson will prove the most useful member of the committee.

It is hoped that the "Prince of Peace" will shortly be delivered to the Eagle's lodge in Lincoln. The lecture should be given in the evening as the saloons close there at seven o'clock and all the "boys" could attend.

While not agreeing with many of the measures advocated by Gov. Shallenbarger in his message, we must, nevertheless, compliment him on its sanity and good sense in the main and for the spirit of earnestness that runs through the entire paper.

Those who were in favor of county option appealed to Mr. Bryan to throw his influence into the balance in order to secure such a measure from the legislature. Mr. Bryan, however, was so busy joining the Eagles' lodge that he was unable to comply with the request.

If you like The Tribune as a newspaper you will confer a great favor by telling your friends about it. We are ambitious to build this paper into the best weekly in the state. We will spare neither labor nor expense to accomplish this ambition. You can help us if you will.

Our much beloved contemporary suggests that the republicans are trying even at this early day to prevent Mr. Bryan from being a candidate for President in 1912. Wrong, brother, quite wrong. The republican party is unanimously in favor of Mr. Bryan being the democratic candidate in 1912 and every four years thereafter.

Gov. Sheldon recommends that all young ladies and gentlemen contemplating marriage shall submit to a medical examination to ascertain whether or not they are capable of bearing children before a license to marry shall issue. But suppose the young people fail in married life to live up to the examination, shall a divorce be the penalty? The Governor must have suffered a "brain storm" about the time his message was written.

THE LEGISLATURE

Not in the spirit of partisanship, but as a citizen of the State of Nebraska we deplore the makeup of the present legislature. We predict that if the crowd now in control under the leadership of Senator Frank Ransom of Omaha is not defeated in their intentions the present legislature will destroy the state democracy for years to come. The legislature was organized in the sole interest of the corporations and against the people. Not a single member who was imbued with the spirit of reform has been given an important assignment. We believe that there are many democratic members who are honest enough and courageous enough to oppose any attempt to legislate in the interest of those elements that have been the bane of honesty in politics. We are impressed with the idea that Gov. Shellenbarger desires the largest measure of public good. But the legislature, elected as it was in the name of reform, is about the worst that has assembled in Nebraska for the last quarter of a century.

We don't much like to hear a man swear, but there are occasions when at least a mild swear word will fit better than any other thing. Such an occasion arose in the organization of the legislature a week or so ago. At noon on the day of the caucus it was definitely determined that Ralph Clark was to be made Speaker of the House. So the powers that be, called Clark into an upstairs room and told him what he was to do for the brewers, the Bell telephone, the express companies, the stock yards, the railroads and other prominent reform interests. Clark demurred at the suggestion of being a mere figurehead and protested that such a program would violate every pledge of the platform. But the "interests" with their usual arrogance told Mr. Clark very plainly that he was to carry out instructions. Then it was that Ralph began to get a little hot under the collar and said with emphasis, "I will not do it."

"Then you can't be speaker," was the ultimatum. "You go to hell with your speakership," was Clark's reply. "You can't deprive me of my seat in the legislature, and you can't buy my vote or influence with your offices," and out the door he went to announce to his friends that he was beaten and some other man was to be elected.

A few minutes later an emissary came to Clark in the hotel office and said to him, "We have a little secret caucus up stairs and we want you to come back and talk this thing over." Clark replied so that several standing near heard him, "I told your gang where to go and I haven't changed my vote." So it was that Clark was defeated and Pool was elected and the forces of reform were triumphant.

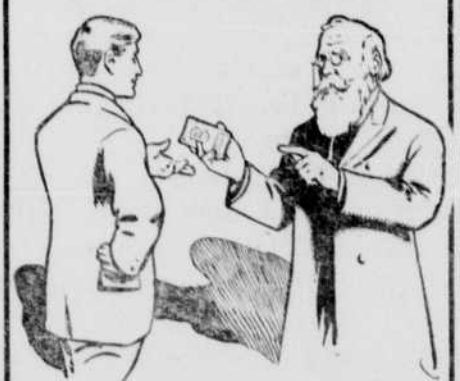

As we remember it we merely made the general statement that to certain mental makeups vulgarity was taken for humor. We mentioned no names, did not speak of a newspaper, but were merely talking in the abstract.

And they got mad. Cinderella is not the only one who has found foot wear made to order.

It's really funny when you analyze it. We think that the President went a little too far in offering a gratuitous insult to congress by suggesting in his message that congress voted down the secret service appropriation for fear of being investigated. Congress has many members who are both able and honest, and a charge of dishonesty from as high a source as the chief executive is a serious thing in forming public sentiment, especially when the President had no reason or grounds for the charge.

Pittsburgh Perfect Fences

are enjoying phenomenal success, and are conceded to be far superior to any other fences on the market. Thousands of pleased fence users will testify that "Pittsburgh Perfect" Electrically Welded Fences are superior.

They will not sag in Summer's heat nor break in the cold of Winter. They are made of the best material for fencing purposes. They will conform to the most uneven ground and can be erected over hills and through valleys as well as on level ground. They have MANY other points of merit.

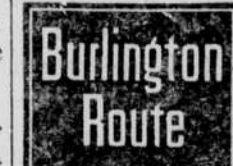

Falls City, Neb. **J. C. TANNER**

Are You Doing Yourself Justice?

MR. FARMER:—Are you looking ahead for your son, or if you are a renter are you looking ahead for yourself? Are you going to accept this chance for a homestead that Uncle Sam has made possible for you? Are you dozing over this, while your more alert neighbor is acting? Don't you realize that the irrigated homesteads now being offered by the government in the Big Horn Basin and North Platte Valley will prove to be the richest land prizes that the government has yet bestowed on its citizens. You certainly ought to know of the present land hunger in this country. Now you have the government furnishing you 80 and 160 acre tracts of land irrigated by the intelligence and financial security of Uncle Sam who has suddenly become the greatest irrigator the world has ever known, who offers you abundant and perpetual water with the choicest land at \$35 to \$45 per acre in ten annual payments without interest; land that will yield more in one year per acre than the price of the farm.

Do you realize what a "good thing" this is in this day and age? If you do not, let me tell you something about it.

Making Money

This desire is present in the mind and heart of every man. Some desire it so greatly that they do not care what means are employed, and therefore in carrying out their desire some of their fellow men must suffer. Others wish to make money, but scorn any means not highly honorable and legitimate. The first class referred to are in a hurry to get rich. They never have savings accounts because it is too slow a process, therefore our appeal is not to them, but to the latter class. To make money honorably a man must first begin to save and when he has accumulated a few hundred or thousand this way he is ready for some good investment, which will pay him more than the savings bank, provided such can be found. But first of all he must save, and that is where we come in. Let us help you get your start. We offer perfect safety and courteous treatment at all times.
